

Terminal Tractor  
RFP 201920-13

### **Response to Questions - #3**

1. In reference to the above mentioned RFP, the specifications call for ABS brakes. We do not normally build the trucks with ABS at this time, as the road speed is limited to 33 MPH, and as such, there is no need for ABS brakes. Is it OK to quote without ABS brakes?

Quote without ABS brakes is acceptable.
