Under federal and state law, compliance with disability access laws is a serious and significant responsibility that applies to all California building owners and tenants with buildings open to the public. You may obtain information about your legal obligations and how to comply with disability access laws at the following agencies:

- The Division of the State Architect at: www.dgs.ca.gov/dsa/Home.aspx

Filing the application and paying the application fee does not automatically provide you with a business license. **All applications are subject to review by the following departments:**

Code Enforcement – Reviews all applications to ensure other departments' recommendations are followed, all applicable business owners are aware of the City's Sign Ordinance and there are no pending violations or actions with the business and/or location of the business.

Building – Changes in occupancy, tenant improvements, or new construction as provided in the Building Code are inspected and approved.

Handyman - Business and Professions Code 7048- Minor Work Exemption

- Be part of a larger project.
- Value of the project may not be divided up to "qualify" under the \$500 dollar rule.
- Cannot advertise to indicate to the public you are a Licensed Contractor. For licensing info call 1-800-321-2752.

Fire Inspection – See fire inspection checklist. Please note: a proper inspection can only be conducted when your business is furnished and you are business ready. An appointment is necessary to secure an inspection. This also applies to those businesses who are sharing office space, you must call the fire inspector for a recheck of all corrections.

Planning – Each business license is reviewed for conformance with the City's many zone districts. In certain cases, additional permits are required. Any type of signage at a location requires a sign permit.

Police Department – Background check compliance, security companies and any other reason deemed necessary.

Public Works - Checks for water quality to ensure no cross contamination of the City water system due to storage of chemicals, backpressure, booster pumps, or location thereof.
