

Backup Generator Annual Maintenance  
RFP 201920-03

Response to Questions - #1

1. What do we do if we are unable to quote the generator at Fire Station #58 due to lack of information available?

Please quote the other generators and note on your response that on the Fire Station #58 Generator you were unable to provide a quote at this time. Once that generator is installed the City can revisit the service of that generator with the successful vendor.
