Published Maps

Select “My Maps” and then select “Published Maps” from the options pane.

The screenshot shows the DRA2020 web application interface. The left sidebar contains a list of navigation options: My Maps, My Communities, Recent, Shared With Me, My Published, Official Maps, Published Maps, and Trash. The 'Published Maps' option is highlighted. The main content area displays a table of published maps. The table has columns for Name, Owner, Labels, Modified, Plan, and State. Map Search

For example. See this search for Fontana, California below.

The screenshot shows the DRA 2020 web application interface. At the top, there is a search bar with the text 'fontana' entered. Below the search bar, a table titled 'Published Maps' displays search results. The table has columns for 'Preview', 'Name', 'Owner', 'Labels', and 'Mod'. One result is shown: 'Fontana, CA - Template' by 'stephanie.smith'.

Preview	Name	Owner	Labels	Mod
	Fontana, CA - Template	stephanie.smith		7:08

Duplicate Map

The screenshot shows the DRA2020 web application interface. At the top, there is a search bar with the text "fontana" and a menu icon. To the right of the search bar are links for "About Data", "What's New", "Feedback", "Help", and "Donate". Below the search bar, there is a section titled "Published Maps" with a dropdown menu showing "(1 map)". To the right of this section are icons for "Edit", "Share", "Duplicate" (circled in green), and "Unpublish". Below this is a table with the following columns: "Preview", "Name", "Owner", "Labels", "Modified", "Plan", and "State". The table contains one row with the following data: "Fontana, CA - Template" (with a checkbox circled in green), "stephanie.smith", "7:08 AM", "2020/Other", and "CA".

Click on the checkbox next to the map that you would like to use, which will select it, and click “duplicate” to make a copy. This will allow you to make modifications.

Rename Map

With the duplicate map still selected, select “Rename” to name and add a description for your new map, and then click “Edit” to begin modifying your new draft map.

The screenshot shows the DRA2020 web interface. At the top, there is a navigation bar with the DRA2020 logo, a search bar, and links for About Data, What's New, Feedback, Help, and Donate. Below the navigation bar, the 'My Maps' section is displayed, showing a list of maps. The 'Edit' and 'Rename' buttons are circled in green. The map list includes a table with columns for Name, Labels, Modified, Plan, and State.

Edit Map

The screenshot shows the DRA2020 map editing interface. The map is titled "Fontana Redistricting 2021". The left sidebar contains several panels: "District Selector" (showing district 1), "District Details" (showing population and demographic data for district 1), "Colors" (with checkboxes for Districts, Map Colors, and Demographics), "Precincts" (with checkboxes for Partisan Lean and Demographics), and "Overlays" (with checkboxes for Background Map, District Lines, Precinct Lines, County Lines, City Lines, and Landmarks). The main map area shows the Fontana area with precinct boundaries. A "paint brush" tool is highlighted with a callout: "“paint brush” selects precincts, which are actually census block groups". A "hand" tool is highlighted with a callout: "“hand” moves the screen around". A callout points to the "District Details" panel: "To zoom in and out use “+” & “-”". A callout points to the "Precinct Details" panel on the right: "Details of the census block or precinct (block group) will update as you edit the map. See also “district details” on the left pane.".

To see details at the census block level, change the selection level to "block" and the blocks that make up the precinct (census block group) will appear.

Tips for Quality Maps

- Districts are compact (uniform shapes, recognizable shapes, not elongated or thinly sliced across the jurisdiction)
- Districts are contiguous
- Districts are relatively equal in population, with a deviation no greater than 10% from the least populated to the greatest populated district. For example, if the ideal district should contain 1000 people, you could have one district that contains 950 people (5% under the ideal) and one district that contains 1050 people (5% over the ideal), with the other districts falling somewhere in between. The total deviation would be an acceptable 10%
- Districts keep neighborhoods and other communities of interest, like territories around schools, around landmarks, etc., together
