

# Madera Transit Plan

Learn About Proposed Changes to Madera Metro Bus Routes and Provide Your Feedback!

## What is the Madera Transit Plan (MTP)?

The MTP is an effort to make Madera Metro's bus routes more useful and less confusing to riders. The proposed changes will:

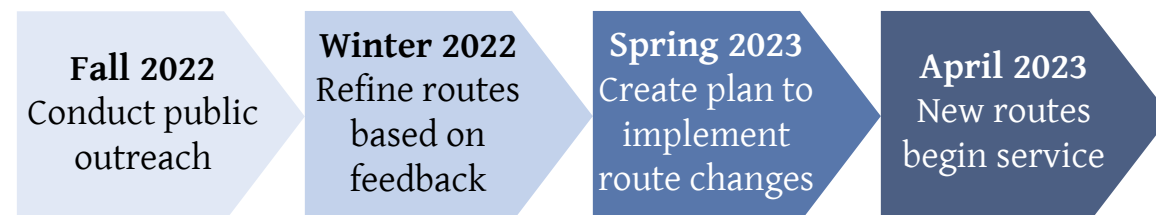

- ✓ Remove excessive turns
- ✓ Shorten routes
- ✓ Add a fourth route
- ✓ Serve key destinations
- ✓ Create sensible transfer points

## Why Develop the MTP?

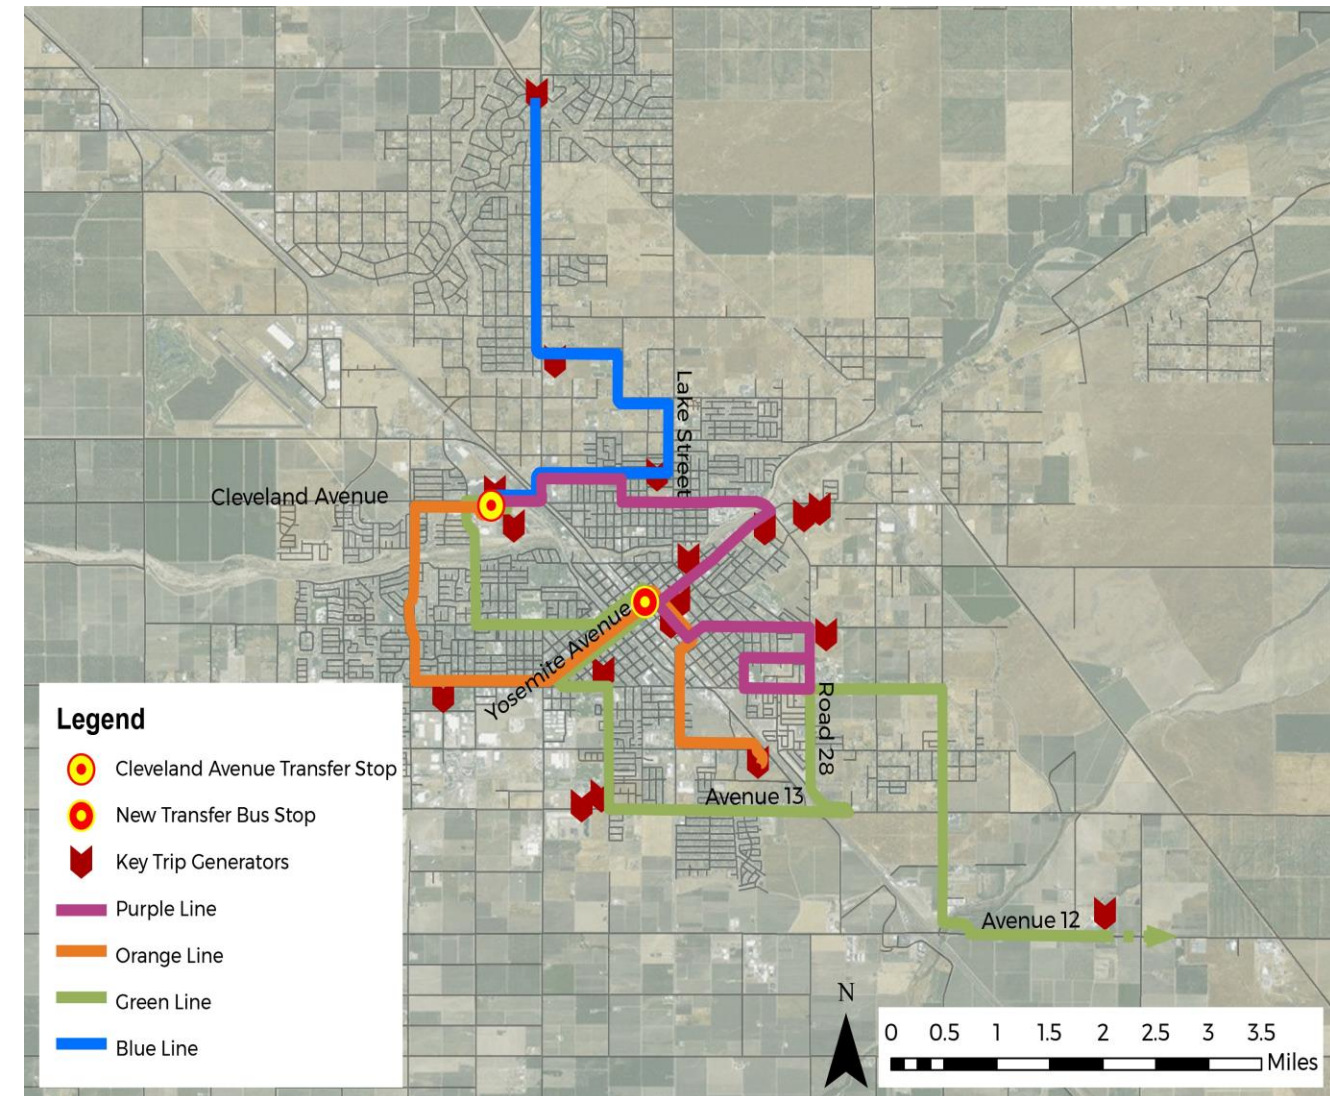

The existing Madera Metro bus routes do a good job of serving most of the city. However, wait times between buses are long and bus stops are unevenly spaced within the routes. The MTP aims to achieve the following:

- Increase bus ridership
- Ensure buses arrive on-time
- Shorten the times between buses
- Increase hours of service

## When Will the Project Occur?

## Proposed Madera Metro Bus Routes

## HOW TO GET INVOLVED

The City will be hosting community forums and multiple pop-up events to present the MTP to the public. Watch the Madera Metro Facebook page and Madera Metro website for updated information on these events.
