Financial Services Department

January 30, 2023

Honorable Mayor and Members of the City Council,
City of Madera, California

It is with pleasure that I present to you the City of Madera Annual Comprehensive Financial Report (ACFR).

State law requires local governments to prepare a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ending June 30, 2022. This report was prepared by the City of Madera's (the City) Finance Department, which assumes responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including disclosures.

The accompanying financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) in the United States of America as prescribed by the Governmental Account Standards Board (GASB).

Generally Accepted Accounting Principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

The City's financial statements have been audited by The Pun Group LLP. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for the rendering of an unmodified opinion that the City of Madera's financial statements for the fiscal year ended June 30, 2022, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are presented in a separately issued report, the Single Audit and Independent Auditors' Reports.

The Management's Discussion and Analysis (MD&A) section of this report offers a more detailed discussion about the economic condition of the City, fund balance analysis and other management goals and achievements.

Government Profile

The City was incorporated on March 27, 1907, as a general law city. The City Council is comprised of six members who are elected by district, plus a Mayor who is elected at large. The Council Members and the Mayor are elected to alternating four-year terms staggered every two years. The City Council is responsible for making policy, passing ordinances, adopting the budget, appointing committees, and hiring the City Manager and the City Attorney. The City Manager is responsible for carrying out the ordinances and policies of the City Council and overseeing operations. All other department heads are appointed by the City Manager.

Madera is located in the center of California, twenty miles north of Fresno, and is the county seat of Madera County. The City has approximate population of 66,000 and its boundaries encompass 16.0 square miles. Madera is also within close proximity to cherished world treasures such as Yosemite National Park, the Sierra Nevada Mountain Range and attractions that run along the Pacific coastline.

The City provides a full range of services that include public safety, public works, recreational and community services, community development and general administrative services. The City also operates a municipal golf course, water and wastewater utilities. A general aviation airport is also part of the City of Madera. Component units are legally separate entities for which the nature and significance of their relations with the City are such that exclusion would cause the financial statements to be misleading or incomplete. Accordingly, the Housing Authority of the City of Madera is reported as a component unit in the City's financial statements.

Local economy and local budget issues

Budget projections for the Fiscal Year 2021/22 were influenced by experts' and consultants' analysis. The City continues to recover from the effects of the recent pandemic. The pandemic has undoubtedly affected the City's finances, operational performance, and compliance burdens in all departments; however, the local economy continues to show signs of recovery. It is unknown at this time how recent economic factors including inflation, interest rate increases, labor shortages, supply chain issues, global conflicts and increased regulation will affect the City's future finances but there are a few key items worth highlighting:

- Sales tax receipts came in higher than expected. Future budget projections remain conservative as the current economic factors could result in a significant slowdown in the economy.
- Property values for both commercial and residential real estate increased slightly and revenue exceeded projections. However, the recent increase in interest rates could result in a significant flattening or reversal of this trend in the future. Future property tax revenue projections are conservative anticipating a continued slow down in the real estate market.
- Recently approved rate adjustments to water, sewer and solid waste charges will allow the City to keep pace with increasing operational costs and new service mandates.
- The American Rescue Plan Act (ARPA) passed into law in March 2021, has provided the City of Madera with approximately \$23 Million in federal grant funds. The City Council has committed these grant funds to infrastructure needs in both the Water and Sewer Funds.

Despite the lingering effects of the pandemic, the financial outcomes were in line with the projections made. Actual sales tax and property tax revenues came in higher than projected as of June 30, 2022. While some industry sectors were impacted, Madera was not as severely impacted in comparison to other communities. This may partially be attributed to the composition of the City's economy which is not heavily reliant on tourism or entertainment. While the City experienced decreases in some categories, any shortages were offset by increases in sales tax and property tax revenues.

Agriculture has been the mainstay of the local economy. Government also represents a growing part of the economy. Major employers in the City include Madera Unified School District, County of Madera, City of Madera and Madera Community Hospital. Major retail employers include Walmart, Lowe's and Home Depot. The City of Madera's unemployment rate was 17% during the peak of the pandemic but significant improvements are now visible with the rate at 5.5% as of October of 2022.

The City is part of the Madera/Chowchilla Metropolitan Area, which includes City of Madera, City of Chowchilla and developed areas of Madera County.

The City maintains extensive budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget adopted by the City Council. For the 2022 fiscal year, activities for the general fund, special revenue funds, debt service, enterprise, and capital project funds were included in the annual appropriated budget.

The level of budgetary control, i.e. the level where the expenditures cannot legally exceed the appropriated amount, is maintained at the fund level for all funds. The City also maintains an encumbrance accounting system as a method of maintaining budgetary control. Outstanding encumbrances at year-end are evaluated and, if deemed necessary by the City Manager, are carried forward as part of the following year's budget.

Long-term financial planning

The City maintains a five-year Capital Improvement Plan, which is updated annually. This plan includes major ongoing maintenance and rehabilitation costs to existing capital assets (land, land improvements, infrastructure, and equipment), as well as the costs of new facilities and improvements.

Budget policies require that budgets be balanced, and ongoing costs shall not exceed current revenues plus available fund balance that exceeds reserve fund requirements. The City is continuously monitoring economic conditions and will adjust the budget as necessary as economic conditions change.

The City maintains a General Fund Economic Stabilization Reserve at a level of at least 30% of the general fund operating expenditures in order to protect essential service programs and funding requirements during periods of economic downturn or other unforeseen major costs not covered by the Contingency Reserve. The balance in the reserve was \$9.4 million as of the end of FY 22. In addition, separate reserve funds have been established in the Measure K fund for economic stabilization for the Fire and Police Departments. Each year \$130,000 is added to each of the reserves until they reach the level of 30% of expenditures. Currently, each Economic Stabilization Fund had a \$650,000 balance at the end of FY 22. Additionally, the Fire department has established a fire engine replacement reserve. The intent was to add \$200,000 each year when the reserve was established. The fund was used for the purchase of a new fire apparatus in FY 22 and had a balance of \$248,540 as of the end of the FY. The funding amount was increased to \$490,000 in FY 22-23.

Also, to finance current and future growth, the City has in place a variety of user and developer fees to pay for streets, parks, sewer lines, water lines and wells. The City reviews these fees periodically to assure that the fee structure is in line with the cost of construction. The City has hired a consultant who is currently developing recommendations for updates to these fees. In addition, the City recently adopted updated fees for Water, Sewer and Solid Waste services to keep up with the rising cost of providing these services.

Cash Management

The City of Madera's investment policy prioritizes safety, liquidity and then yield on the City's investment. The highest priority of cash management and investments is to ensure adequate funds are available to meet the City of Madera's obligations and all investments are in safe instruments. Yield, while important, is considered the third priority after safety and liquidity. The City invests in the Local Agency Investment Fund "LAIF" operated by the State of California for the benefit of local governments. Bond proceeds, debt service monies, and debt service reserves are invested according to the bond covenants of each bond issue.

Acknowledgments

I would like to extend my thanks to the City Council for their interest in and suggestions for the financial reporting of the City. The preparation of the ACFR could not have been accomplished without the efforts and dedication of the staff of the City of Madera, Department of Finance. I extend my appreciation to my staff and other personnel from various departments, agencies and authorities who assisted in the preparation of this report.

Respectfully submitted,

Joy Canfield

**INDEPENDENT AUDITORS' REPORT**www.pungroup.cpa

To the Honorable Mayor and Members
of the City Council of the City of Madera
Madera, California

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information, of the City of Madera, California (the "City"), as of and for the year ended June 30, 2022, and the related notes to the basic financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information, of the City, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Housing Authority of the City of Madera (the "Authority"), which represent 100% of the assets, net position, and revenues, respectively, as of June 30, 2022, and the respective changes in financial position, the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Authority, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter*Implementation of New GASB Pronouncements*

As discussed in Note 1 to the basic financial statements, the City implemented Governmental Accounting Standards Board ("GASB") Statement No. 87, *Leases* during the year. Our opinion is not modified with respect to this matter.

Change in Fiscal Year-End – Discretely Presented Component Unit

As described in Note 1 to the basic financial statements, the Discretely Presented Component Unit elected to change its fiscal year-end from June 30, 2021 to September 30, 2021. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedules, Schedule of Changes in Net Pension Liability and Related Ratios, Schedule of the City's Proportionate Share of the Net Pension Liability and Related Ratios, Schedules of Contributions, and Schedule of Changes in Total OPEB Liability and Related Ratios, as listed in the accompanying table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Combining and Individual Fund Financial Statements and Budgetary Comparison Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the Combining and Individual Fund Financial Statements and Budgetary Comparison Schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory and Statistical Sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

To the Honorable Mayor and Members
of the City Council of the City of Madera
Madera, California
Page 4

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 30, 2023, on our consideration of City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "The PwC Group, LLP". The signature is written in a cursive, flowing style.

City of Madera

Management's Discussion and Analysis (Unaudited)

For the Year Ended June 30, 2022

This narrative overview of the City of Madera's financial performance provides an analysis of the City's financial activities for the fiscal year ended June 30, 2022. Please read it in conjunction with the accompanying basic financial statements and the accompanying notes to those financial statements.

Financial Highlights

- The City's government-wide total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources at the close of the fiscal year by \$331.5 million. Of this amount, \$41.8 million is in unrestricted net position and available to meet the City's ongoing commitments to citizens and creditors. In addition, the City's restricted net position totals \$46.9 million and is dedicated to specific purposes. Lastly, net position of \$242.8 million is the City's net investment in capital assets.
- The City's total net position increased by \$15.6 million or 4.9% during fiscal year 2021-22 to \$331.5 million from \$315.9 million.
- At the close of the current fiscal year, the City's governmental funds reported combined fund balances of \$79.9 million, an increase of \$4.9 million or 6.5% in comparison with the prior year. Approximately \$11.1 million or 13.9% of this amount is available for spending at the City's discretion (unassigned fund balance).
- The City's General Fund, Measure K Sales Tax, Code Enforcement, Insurance Reserve, Community Development and LEA Tire Grants, ended the year with a fund balance of \$36.7 million, which represents a net increase of approximately \$6.0 million from the previous year. The General Fund unassigned balance of \$7.8 million is available for carryover to fund future general fund expenditures.
- Net Pension Liability decreased by \$18.6 million or 36.1% during fiscal year 2021-22 to \$32.9 million from \$51.5 million. Deferred outflows of resources related to pensions decreased by \$1.4 million or 13.4% and deferred inflows of resources related to pensions increased by \$15.5 million or 1601.3%. The Net Pension Liability is based on an Actuarial Valuation and there was no change in the discount rate of 7.15% from the prior year.

During this year, the rates for water and sewer services remained static. Prior to this year, incremental rate increases over the subsequent five years were approved by Council during the second quarter of calendar year 2015. Those rate increases took effect in fiscal year 2015-16 and were increased between 9-10% during each of the five years covered in the rate schedule, except for fiscal year 2018-19 when Council considered a revised water rate analysis and adjusted the increase to 6%. In October 2021, the City issued an RFP for a Proposition 218 Rate Study for water, sewer, storm drainage and solid waste utility rates. The study was completed, and Council accepted the Rate Study on April 6, 2022. Prop 218 hearings were held, and all but the new drainage fee rates were adopted on July 20, 2022. The new rates will go into effect in fiscal year 2022-23.

Overview of the Financial Statements

This annual report consists of a series of financial statements. These statements include all activities of the City of Madera, using the integrated approach as prescribed by GASB Statement No. 34. The Statement of Net Position and Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements tell how these services are financed in the short-term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside the Government.

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

Reporting the City as a Whole

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances. These statements include all assets and liabilities of the City using the *accrual basis of accounting*, which is similar to the accounting method used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid out.

The *statement of net position* presents information on all the City's assets, deferred outflows, liabilities, and deferred inflows of resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as one indicator of whether the City's financial position is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed in the most recent fiscal year. All changes of net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported on this statement for some items that will result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The government-wide financial statements of the City are divided as follows:

Governmental Activities: Most of the City's basic services are included here such as public safety, transportation (street and roads), community development, culture and recreation and general government. These services are primarily financed by property and sales taxes and federal and state grants.

Business-type Activities: The City charges fees to customers to cover the costs of services provided. The City's utilities, water, sewer, community sanitation (refuse and street cleaning), golf course, and airport, as well as public transit services are included here.

Fund financial statements. The fund financial statements provide more detailed information about the City's most significant funds, not the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Some funds are required to be established by State Law or by bond covenants. Management establishes other funds to control and manage money for a particular purpose or to show the City is meeting legal responsibilities for using certain taxes, grants, and other money. All the funds of the City can be classified into three categories: governmental, proprietary and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other financial assets that can readily be converted to cash. Such information is useful in evaluating a government's near-term financing requirement.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliations between governmental funds and governmental activities. This reconciliation explains the relationship (or differences) between the fund statements and the government-wide statements.

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

The City of Madera maintains nineteen individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, General Development Impact Fee Fund, and Solar Energy Lease – Capital Projects Fund all of which are considered to be major funds. Data from the other sixteen funds are combined into a single aggregated presentation.

Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for the General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance to this budget.

Proprietary funds. The City has two different types of proprietary funds, enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City utilizes enterprise funds to account for those activities that are supported primarily by user charges to external users, and includes community sanitation, sewer disposal, water utilities and transit services. Internal service funds are used to account for activities that are supported by user charges primarily to the City's other programs and activities and include fleet management, facility maintenance, and computer replacement. Because all of these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for Water, Sewer, Solid Waste, and Drainage Operations funds since they are all major funds. Individual fund data for each of these non-major enterprise funds is provided in the form of combining statements elsewhere in this report. All of the internal service funds are combined into a single, aggregated presentation in the fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefits of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the City cannot use these funds to finance its operations.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund statements.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits and other post-employment benefits to its employees, and budgetary comparison schedules.

Individual Fund Statements. Individual fund statements in connection with non-major governmental and enterprise funds are presented immediately after the required supplementary information in this report

Restricted	44,524,605	46,349,016	1,794,447	963,474	46,319,052	47,312,490
Unrestricted	1,380,440	(9,774,183)	41,013,126	33,447,161	42,393,566	23,672,978
Total net position	\$ 223,275,041	\$ 215,522,447	\$ 108,283,343	\$ 100,377,720	\$ 331,558,384	\$ 315,900,167

As of June 30, 2022, the City's government-wide total assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$331.5 million. Governmental activities finished the year with a positive net position balance of \$223.3 million, an increase of \$7.8 million, or 3.6% compared to 2021. Business-type activities finished the year with a positive balance of \$108.3 million, an increase of \$7.9 million or 7.9% compared to 2021. Net position, as noted earlier, may serve over time as a useful indicator of the City's financial position. Of the total net position, \$242.8 million or 73.2% is the City's net investment in capital assets (e.g., land, buildings and improvements, machinery and equipment and the road network) less any related debt used to acquire those assets that is still outstanding.

The City's net investment in capital assets decreased by \$2.1 million, restricted net position decreased by \$.4 million and unrestricted net position increased by \$18.1 million, accounting for the increase in total net position of \$15.6 million. The decrease in net investment in capital assets is primarily due to additions to capital assets of \$11 million offset by depreciation expense of \$12.8 million, a decrease in capital-related debt of \$3.4 million. The decrease to restricted net position represents the change in resources that are subject to external restrictions on their use. Net position restricted for public works and transportation increased by \$1.7 million, capital projects decreased by \$3.4 million and debt service increased by \$0.8 million compared to prior year. The increase to unrestricted net position is due to a change in resources available to fund City programs for citizens and debt obligations to creditors.

Restricted net position represents \$46.3 million or 14.0% of the total net position. Restricted net position represents those resources that are subject to external restrictions on how they may be used. These restrictions are established by bond covenants or restrictions on the use of funds are set forth by state or federal regulations.

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

Unrestricted net position represents those resources which may be used to meet the City's ongoing commitments to citizens and creditors. Government-wide unrestricted net position represents \$42.4 million or 12.8% of the total net position, which is an increase of \$18.7 million or 79.1% from the previous year. Governmental activities account for \$1.4 million of the total unrestricted net position improved by \$11.2 million or 114.1% compared to last year. Business-type activities account for \$41.0 million of the total unrestricted net position and increased by \$7.6 million or 22.6% compared to last year.

The following table indicates the changes in net position for governmental and business-type activities:

	Governmental Activities		Business Type Activities		Total

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

Governmental activities. Governmental activities account for \$223.2 million or 67.3% of the total government-wide net position. This is an increase of \$7.8 million or 3.6% compared to June 30, 2021.

Total governmental revenues for the year were \$53.8 million, which is \$2.4 million or 4.6% more than in 2021.

- Operating grants and contributions decreased by \$0.3 million or 2.5% from the previous year.
- Capital grants and contributions decreased by \$0.5 million or 18.6% from the previous year due to a decrease in developer contributions.
- Taxes, including property, sales, franchise, and other taxes account for approximately \$34.8 million or 66.6% of the City's governmental activities revenue. Total tax revenue increased \$4.4 million or 14.3% from the previous year.
- Investment earnings decreased by \$1.4 million or 1415.3% from the previous year. The decrease was primarily due to the rising interest rates lowering the market value of investments made at lower rates.

Total governmental expenses for the year were \$46.5 million, which is \$3.8 million or 9.0% more than in 2021.

- General governmental expenses decreased by \$0.3 million or 2.9% from the previous year.
- Public safety expenses increased by \$2.8 million or 15.0% from the previous year.
- Social services expenses increased by \$0.9 million or 694.0% from the previous year.
- Public ways and facilities expenses increased by \$1.6 million or 42.2% from the previous year.
- Community development expenses decreased by \$0.9 million or 14.3% from the previous year.
- Culture and recreation expenses decreased by \$0.4 million or 10.0% from the previous year.

Revenues by Source - Governmental Activities

Expenditures and Program Revenues - Governmental Activities
(Dollars in Thousands)

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

Governmental program revenues that include charges for services and grants specific to certain programs account for \$19.5 million or 56.9% of the total governmental activity revenue. The amounts necessary to fully fund the governmental activity programs are made up of "general" revenues such as taxes, interest, and grants and contributions.

Business-type Activities. Business-type activities account for \$108.3 million or 32.7% of the total government-wide net position. This is an increase of \$7.9 million from the prior year. Net investment in capital assets accounts for \$65.5 million or 59.8% of the total net position and is a decrease of \$0.5 million from 2021. Restricted net position accounts for \$1.8 million, or 1.6% of total net position. This represents an increase of \$0.8 million from 2021. Unrestricted net position of \$42.2 million, or 38.6% of total net position, represents an increase of \$8.8 million from 2021.

Total business-type revenue for the year was \$35.6 million, which is \$0.1 million or 0.4% less than in 2021.

Charges for services increased by \$1.1 million or 3.2% from the prior year. Additional water meters were installed where there were previously no meters. The result of adding meters to customers where no meter was originally installed typically increases charges for services.

Capital grants and contributions decreased by \$0.4 million or 26.2% from the prior year.

Revenues by Source – Business - Type Activities

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

Expenses and Program Revenues - Business-Type Activities
(Dollars in Thousands)

Included in charges for services are user fees relating to the water, sewer, solid waste, drainage, transit, golf course, and airport operations. Operating transit grant funds which are the primary revenue for the transit fund are included in charges for services.

Total business-type expenses for the year were \$27.1 million, which is \$0.3 million or 1.2% more than in 2021.

Water expenses decreased by \$0.2 million or 2.6% compared to the prior year, primarily due to salary savings and operational cost decreases.

Sewer expenses decreased by \$0.5 million or 5.7% compared to the prior year.

Solid Waste expenses increased by \$0.4 million or 6.7% compared to the prior year.

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. Fund balance is defined in five categories: non-spendable, restricted, committed, assigned and unassigned. Non-spendable fund balances cannot be spent because they are not in spendable form. Restricted fund balances have limitations imposed externally by creditors, granters, contributors, or laws and regulations of other governments. Committed fund balances have self-imposed limitations set in place prior to the end of the period. Assigned fund balances are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. Unassigned fund balances are the amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose.

The City's Governmental Funds all ended the year with positive fund balances. The ending fund balance for all funds amounted to \$81.2 million, \$6.2 million or 8.3% more than the previous year.

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

Of the total fund balance, \$9.6 million or 11.8% is unassigned which, within the limitations of the fund's purpose, is available for spending at the City's discretion. The remainder of the fund balance is either non-spendable, restricted, committed, or assigned to indicate that it is not in spendable form, legally required to be maintained intact, restricted for a particular purpose, committed for a particular purpose, or assigned for a particular purpose. The details of the remainder are as follows:

Nonspendable	
Prepaid items	\$ 64,366
Inventories	72,904
Advances to other funds	12,240
Total nonspendable	149,510
Restricted	
Community development	11,995,613
Park development	104,975
Parking improvements	140,560
Public works and transportation	13,788,417
Special assessment project	463,096
Public protection	252,737
Capital projects and improvements	17,131,133
Total restricted	43,876,531
Committed	
General Fund stabilization reserve	9,354,964
Measure K - Police/Fire Protection	1,548,540
Total committed	10,903,504
Assigned	
Golf course capital	20,000
Debt service	1,069,400
OPEB liability	97,339
Insurance reserve	3,038,867
Health insurance premiums	1,809,333
Future annual stipend payments	866,667
Measure K - Police/Fire Protection	9,713,242
Total assigned	16,614,848
Unassigned	9,607,661
Total fund balances	\$ 81,152,054

General Fund

The General Fund is the chief operating fund of the City. As of June 30, 2022, the total fund balance (including all categories) of the general fund was \$38.6 million, up \$7.9 million from June 30, 2021. The total fund balance of \$36.7 million includes non-spendable balances of \$0.1 million, committed balances of \$10.9 million, assigned balances of \$16.6 million, and an unassigned balance of \$10.9 million.

The *assigned* fund balance increased \$2.7 million when compared to June 30, 2021, primarily due to the \$4.0 million increase in Measure K fund balance which was offset by reductions of \$0.9 million to the health insurance premiums reserve and a \$0.4 million decrease in reserves for future annual stipend payments.

The *unassigned* fund balance increased \$5.4 million when compared to June 30, 2021. The \$10.9 million unassigned portion represents the amount carried over to offset the impact of any revenue shortfall that may occur in the next year due to economic uncertainty, adjustments to budgets approved by council during the next fiscal year, and to augment the maintenance of the water and sewer infrastructure as necessary. As a measurement of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total General Fund expenditures. Unassigned fund balance represents approximately 31.0% of total General Fund expenditures, while total fund balance represents approximately 109.5% of total General Fund expenditures.

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

Other Major Funds

The General Development Impact Fee Special Revenue Fund, a major fund, had a \$1.8 million increase in fund balance during fiscal year 2021-22. The ending fund balance of \$17.5 million is restricted for capital projects and improvements.

Proprietary Funds. As indicated in the description of proprietary funds, there are two types of funds, enterprise and internal service funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The City's enterprise funds and internal service funds ended the year with total net position as follows:

Water Fund	\$ 44,313,103
Sewer Fund	23,666,831
Solid waste Fund	(93,009)
Drainage Operations Fund	19,035,569
Local Transit Fund	7,878,589
Golf Course Fund	982,642
Airport Fund	12,499,618
Fleet Maintenance Fund	5,618,446
Facilities Maintenance Fund	367,573
Technology Fund	489,388

Revenue was up slightly in the City's enterprise funds in fiscal year 2021-22. Water revenue was up 1.3%, Sewer revenue 2.0%, Solid Waste 2.5% and Drainage Operations 3.2%. Expenses were lower in the Water, Sewer, and Drainage Operations funds for fiscal year 2021-22 but up 7.5% in the Solid Waste Funds. The City Council recently adopted new rates for the Water, Sewer and Solid Waste services which will go into effect in fiscal year 2022-23.

General Fund Budgetary Highlights

The general fund ended fiscal year 2021-22 \$7.1 million under budget. This variance was primarily the result of \$3.7 million more in revenue and \$3.4 million less in expenditures than projected.

- Actual expenditures for General Government came in \$0.1 million over budget due to increased costs associated with property, liability, and fidelity insurance, contracted services, and intergovernmental charges.
- Actual expenditures for Public Protection came in at \$2.0 million under budget due to savings in contracted services and personnel costs.
- Actual expenditures for Public Ways and Facilities were \$0.6 million under budget due to savings in supplies and materials, contracted services, and personnel costs.
- Actual expenditures for Community Development came in at \$0.5 million under budget due to savings in contracted services and personnel costs.
- Actual expenditures for Culture and Recreation came in at \$0.9 million under budget due to savings in personnel costs related to COVID-19 reduction in recreational programs, contracted services and conference/training.
- Actual expenditures for Capital Outlay were \$1 million over budget due to projects that were carried over from the last fiscal year that were started or completed during the current fiscal year.

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

Capital Assets and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2022, amounts to \$301.5 million (net of depreciation), a decrease of \$1.8 million compared to 2021. This increase is primarily due to the additions to capital assets of \$11 million offset by depreciation expense of \$12.8 million.

Major capital asset additions this year include the following:

- Road network improvements - \$3.7 million
 - Developer donations (sidewalk, pavement, pipelines, and others) - \$1.8 million
 - Various other street improvement projects - \$1.4 million
 - Various park improvement projects - \$0.1 million
 - Various traffic signal improvement projects - \$0.4 million
- Equipment, property, and software purchases - \$2.5 million
- Water Pipeline replacements - \$0.4 million
- Solar Power Improvement - \$4.2 million

During the year, the City made improvements to various streets, parks, sewer mains, and received developer- donated infrastructure. Capital projects constructed by the City include:

- Park improvements: India Park and Olive Knox Park
- Sewer main replacement: Pecan Avenue
- Street improvements: Raymond Road, Cleveland Avenue, Olive Avenue, Gateway Drive, Central Avenue, Stadium Road, Maple Street, Santa Cruz Street, Monterey Street, Lilly Street and Vineyard Avenue, 5th Street, C Street, E Street, Lincoln Avenue, South Street, Austin Street, Schnoor Avenue, Sunset Avenue, and Riverside Drive
- Trail construction: Gateway Drive, Raymond Road, and Cleveland Avenue
- Traffic signal improvements and installations: Granada Drive, Howard Road, Industrial Avenue, Westberry Boulevard, Stadium Road, Gary Lane, Olive Avenue, Pine Street, Yosemite Avenue, Q Street, Cleveland Avenue, D Street, South Street, Lake Street, and Adell Street
- Water storage tank installation: Avenue 17 and Lake Street
- Water main replacements: Madera Avenue, I Street, Gateway Drive, Central Avenue, and Yosemite Avenue

Developer constructed infrastructure was constructed in conjunction with the partial list of projects shown below:

- La Spezia II & III Subdivision
- Varbella II Subdivision
- Country Club Starbucks
- Specialty Crop
- Barrows Physical Therapy
- Caliber Collision
- Downtown Residential Housing (5th Street and C Street)

Detailed information on the City's capital assets can be found in Note 8 of the Notes to the Basic Financial Statements.

Long-term Debt. The City's long-term debt as of June 30, 2022, was \$60.8 million with governmental activities accounting for \$23.2 million or 38.1%, and business-type activities accounting for \$37.6 million or 61.9%. The total debt decreased by \$3.4 million or 5.3% during the current fiscal year. The reason for the decrease was due to the principal payments made during the current year.

	Long-Term Debt					
	Governmental Activities		Business Type Activities		Total	
	2022	2021	2022	2021	2022	2021

General obligation debts are direct obligations of the City and are backed by the full faith and credit of the City requiring voter approval and may have a tax rate set to cover repayment. State statutes limit the amount of general obligation debt to 15% of the City's total assessed valuation. The City of Madera's debt limit is \$535.8 million. Detailed information on the City's long-term debt activity can be found in Note 9 of the Notes to the Basic Financial Statements.

Economic Factors and Next Year's Budgets and Rates

The national GDP decreased by 1.5% over the first quarter of 2022. Economic growth remained stagnate and decreased compared with the prior year over the first few months of 2022. At the state level, California GDP continues to be the highest of all the states even though there was a slight decrease for the current fiscal year. Because the Central Valley relies heavily on an agriculture-based economy, profits are not as lucrative and challenges such as weather (drought), labor availability, and government subsidies all play into the bottom line.

In the last year, the County of Madera had added approximately 1,870 jobs. In October 2022, the unemployment rate in the County was 5.5%, down from the yearly high of 7.8% in January of 2022, according to the United States Bureau of Labor Statistics. The effect of the pandemic appeared to be waning over the past year. At the state level, unemployment is averaging 4.5%.

As the economy began to reopen, the local unemployment rate decreased and was down to 5.6% by June 2022. This was vastly improved from the 9.7% rate in the previous year. As businesses reopen and new businesses open, it is hoped unemployment figures will continue to improve.

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

The City of Madera has seen an increase in certain sectors in consumer spending, especially those sectors related to autos, transportation, travel, fuel, and restaurants. This trend is reflected in overall sales tax revenue growth compared to last fiscal year. Sales tax figures for next fiscal year are projected conservatively due to inflationary pressures and a slowing economy.

New home starts are expected to decline as interest rates continue to rise. The number of residential homes permitted decreased in fiscal year 2021-22, with 173 permits issued. There were 200 permits issued in fiscal year 2020-21. Although Madera has yet to see a large decline in home values seen in other areas, prices could begin to soften based on the recent rise in home mortgage interest rates.

The City has undertaken a number of measures to combat the effects of economic downturns. Voters approved Measure K in November of 2016 which added a half-cent sales tax to expand public safety services. Measure K sales tax brought in \$7 million in additional sales tax revenue for fiscal year 2021-22. Measure K revenue has allowed the City to expand its public safety services and purchase much needed fire apparatus and equipment. The funding has allowed the city to establish economic stabilization reserves and an equipment replacement reserve to ensure reliable delivery of services in the future. The City has also purchased the property adjoining the police department, thereby allowing for the expansion of police operations.

In December 2019 the City entered into a lease purchase agreement to finance energy improvements and upgrades. The projects include HVAC upgrades, LED lighting, solar streetlights, EV charging stations and PV solar. The City has continued to benefit from the upgrades with substantial savings in energy costs. The projects are scheduled to be fully completed early in 2023.

Economic development activity continues to remain stable and is seen through the addition of commercial, industrial, and residential buildings. The industrial vacancy rate continues to remain under 1%. In response, the City began a joint venture with a local company to develop Freedom Industrial Park, a 100-acre industrial site. The first tenant of the complex has moved in and employs about 100 individuals.

The City is actively reaching out to the business community to fill a future, second building that has already been approved for the site. The grounds will be "plug and play" ready, with full infrastructure and rail access. The intersection at Avenue 17 and State Route (SR) 99 remains a primary focus of the City's economic development efforts. The site currently includes Love's Madera Travel Center and more than \$10 million in infrastructure improvements. It is expected that the improvements will spur additional development around the interchange. Another development just to the north of Madera is Matilda Torres High School. The school requires sewer and water infrastructure expansion, which has generated interest in development of properties in the immediate vicinity.

Water is and will remain a key element in the regional economy. The City is taking an active role in regional groundwater management efforts and is planning the next stages of improvements to address long-term water service for current residents and future development. The City received over \$23 million in American Rescue Plan Act funds that have been 100% allocated to fund Water and Sewer Infrastructure projects by the City Council. Additionally, potential projects identified by City staff include the replacement of manual water meters, installation of new water meters, recoating of the water tower and the design of water main upgrades throughout the City. These additional projects have planned funding from revenue in the Water Utility Fund. A new water storage tank, pump station and associated transmission mains are included in the Capital Improvement Program with the initial engineering efforts taking place in fiscal year 2022-23. The tank represents a critical component of infrastructure necessary to counter continual drought conditions in the valley. Construction funding for the tank project will require special financing either through grants, municipal bonds or low interest loans.

City of Madera
Management's Discussion and Analysis (Unaudited) (Continued)
For the Year Ended June 30, 2022

The economic outlook for the year ahead remains cautiously optimistic. While the lingering pandemic has impaired economic growth in some industries, other industries have experienced growth including autos, transportation, travel, fuel, restaurants and on-line sales. Efforts to reduce inflation could have a significant impact on growth and the City's future revenues. The City will continue with a prudent, conservative financial planning model as it makes budget decisions for the future.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City of Madera's finances and to demonstrate the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Director of Financial Services, City of Madera, 205 W. 4th Street, Madera, CA 93637.

Governmental Funds Financial Statements

General Fund - This fund accounts for all revenues and expenditures used to finance the traditional services associated with a municipal government which are not accounted for in the other funds. In Madera, these services include general government, public protection, social services, public ways and facilities, community development, and culture and recreation.

General Development Impact Fee Fund - This fund accounts for and reports the proceeds of the AB1600 development impact fee monies that are restricted or committed to expenditures for the intended purposes.

Solar Energy Lease Capital Projects Fund - This fund accounts for the construction of the Solar Energy Lease Purchase projects. These projects are funded by the Solar Energy Lease Purchase debt obligations.

Reconciliation of the Governmental Funds Balance Sheet
to the Government-Wide Statement of Net Position
June 30, 2022

Total Fund Balances - Total Governmental Funds	\$ 81,152,054
Amounts reported for Governmental Activities in the Statement of Net Position were different because:	
Unavailable revenues reported on the Governmental Fund Financial Statements resulting from activities in which revenues were earned but were not available are reclassified as revenues in the Government-Wide Financial Statements.	2,467,522
Capital Assets used in the governmental activities were not financial resources and therefore were not reported in the Governmental Funds Balance Sheet.	
Government-Wide Statement of Net Position	198,074,866
Less: capital assets reported in Internal Service Funds	(4,043,317)
Total capital assets	194,031,549
Long-term liabilities are not due and payable in the current period and therefore were not reported in the Governmental Funds Balance Sheet.	
Amount reported in Government-Wide Statement of Net Position	
Compensated absences - due within one year	(1,097,609)
Compensated absences - due in more than one year	(758,468)
Long-term debt - due within one year	(1,069,400)
Long-term debt - due in more than one year	(22,152,495)
Less: amount reported in Internal Service Funds:	
Compensated absences - due within one year	111,808
Compensated absences - due in more than one year	95,915
Total long-term liabilities	(24,870,249)
Interest payable on long-term debt did not require current financial resources. Therefore, interest payable was not reported as a liability in the governmental funds.	(112,692)
Aggregate net pension liability and total OPEB liability used in the governmental activities were not financial resources and therefore were not reported in the Governmental Funds Balance Sheet.	
Net pension liability	(27,552,092)
Total OPEB liability	(3,461,018)
Less: amount reported in Internal Service Funds:	
Net pension liability	1,717,456
Total OPEB liability	317,849
Total pension and OPEB	(28,977,805)
Deferred outflows of resources related to OPEB and pensions are not available for current period and, therefore, are deferred in the governmental funds or not recorded in the governmental funds.	
Amount reported in Government-Wide Statement of Net Position	
Deferred outflows of resources related to OPEB	653,723
Deferred outflows of resources related to pensions	7,799,780
Less: amount reported in Internal Service Funds:	
Deferred outflows of resources related to OPEB	(60,035)
Deferred outflows of resources related to pensions	(414,292)
Total deferred outflows of resources	7,979,176
Deferred inflows of resources related to OPEB and pensions are not available for current period and, therefore, are deferred in the governmental funds or not recorded in the governmental funds.	
Amount reported in Government-Wide Statement of Net Position	
Deferred inflows of resources related to OPEB	(105,598)
Deferred inflows of resources related to pensions	(15,238,021)
Less: amount reported in Internal Service Funds:	
Deferred inflows of resources related to OPEB	9,698
Deferred inflows of resources related to pensions	464,000
Total deferred inflows of resources	(14,869,921)
Internal service funds are used by management to charge the cost of fleet management, risk management, information technology, and building maintenance to individual funds. The assets and liabilities of the internal service funds are included in the governmental activities in the statement of net position.	6,475,407
Net Position of Governmental Activities	\$ 223,275,041

City of Madera
Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes
in Fund Balances to the Government-Wide Statement of Activities and Changes in Net Position
For the Year Ended June 30, 2022

Total Fund Balances - Total Governmental Funds	\$ 6,191,990
Amounts reported for Governmental Activities in the Statement of Net Position were different because:	
Governmental funds reported capital outlay as expenditures. However, in the Government-Wide Statement of Activities and Changes in Net Position the cost of those assets was allocated over their estimated useful lives as depreciation expenses. This is the amount of capital assets recorded in the current period (net of \$1,302,798 added in internal service funds).	6,955,986
In the Government-Wide Statement of Activities, donated assets are reported as a capital contribution.	1,189,535
Depreciation expense on capital assets was reported in the Government-Wide Statement of Activities and Changes in Net Position, but they did not require the use of current financial resources. Therefore, depreciation expense, net of internal service funds of \$666,871, was not reported as expenditures in the Governmental Funds.	(7,680,834)
The net effect of various miscellaneous transactions involving capital assets (i.e. sales, trade-ins, and donations) decreased net position.	(257)
Repayment of long-term liabilities was an expenditures in governmental funds, but the repayment reduced long-term liabilities in the Government-Wide Statement of Net Position.	
Principal payment of long-term debt	1,034,200
Amortization of bond premium	33,155
Interest expense on long-term debt was reported in the Government-Wide Statement of Activities, but it did not require the use of current financial resources. This amount represented the changes in accrued interest from prior year.	4,581
Compensated absences expenses reported in the Government-Wide Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. (net of \$19,228 deducted in internal service funds).	(35,863)
Revenues in the Government-Wide Statement of Activities that do not provide current financial resources and are not reported as revenue in the governmental funds.	(360,434)
Certain pension expenses reported in the Government-Wide Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds.	
Changes in pension related deferred outflows of resources	(518,945)
Changes in net pension liabilities	14,152,529
Changes in pension related deferred inflows of resources	(14,609,873)
Certain OPEB expenses reported in the Government-Wide Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds.	
Changes in OPEB related deferred outflows of resources	24,819
Changes in total OPEB liabilities	177,039
Changes in OPEB related deferred inflows of resources	41,864
The internal service funds are used by management to charge the costs of fleet maintenance, facilities maintenance, and technology to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.	1,153,102
Change in Net Position of Governmental Activities	\$ 7,752,594

Proprietary Funds Financial Statements

Water Fund - This fund is used to account for the activities of the City's water pumping, treatment and distribution operations.

Sewer Fund - This fund is used to account for the activities of the City's sewer collection and treatment operations.

Solid Waste Fund - This fund is used to account for the activities of the City's solid waste operations.

Drainage Operations Fund - This fund is used to account for the activities of the City's drainage operations.

Internal Service Funds - These funds are used to provide goods and services by one department or agency to other departments or agencies of the City on a cost reimbursement basis.

Fiduciary Funds Financial Statements

Custodial Funds - These funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private purpose trust funds. This includes the Madera General Deposit Custodial Fund and Community Facilities Districts Custodial Fund.

RDA Successor Agency Private Purpose Trust Fund - This fund is used to account for monies received from the Madera County Auditor Controller for the repayment of the enforceable obligations of the former Madera Community Development Agency. These funds are restricted for the sole purpose of payment of items on an approved Recognized Payment Obligation Schedule (ROPS).

City of Madera
Notes to the Basic Financial Statements
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies

The basic financial statements of the City of Madera, California (City) have been prepared in conformity with Generally Accepted Accounting Principles of the United States of America (U.S. GAAP) as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting standards in the United States. The more significant of the City's accounting policies are described below.

A. Financial Reporting Entity

The City of Madera, California (the "City") was incorporated in 1907 under the general laws of the State of California. The City operates under a Council-Manager form of government and provides the following services: public protection, health and social services, public ways and facilities, community development (planning, building and zoning), culture-recreation, public utilities (water, sewer, solid waste, and drainage operations), airport services, local transportation, golf course, and general administrative services.

Blended Component Units

The financial reporting entity consists of the primary government, the City, and its component units. Component units are legally separate entities for which the elected officials of the primary government are financially accountable. In addition, component units can be other organizations for which the primary government is accountable and their exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Blended component units, although legally separate entities, are, in substance part of the government's operation and so data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the government.

Although the following are legally separate from the City, they have been "blended" as though they are part of the City because the component unit's governing body is substantially the same as the City's and there is a financial benefit or burden relationship between the City and the component unit; management of the City has operational responsibilities for the component units; and/or the component units provide services entirely, or almost entirely, to the City or otherwise exclusively, or almost exclusively, benefits the City, even though it does not provide services directly to it.

Madera Public Financing Authority (Financing Authority)

The Madera Public Financing Authority (Financing Authority) was created in 1989. The Financing Authority is a joint exercise of joint powers. The City Council serves as directors of the Financing Authority. The purpose of the Financing Authority is to act as a financing/lending type of entity only. No separate annual financial statements are prepared for the Financing Authority. Since the City Council previously served as the government board for this component unit, the City's component unit was considered to be a blended component unit. Blended component units, although legally separate entities, are in substance, part of the City's operations and financial information was reported with the primary government.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

A. Financial Reporting Entity (Continued)

Discretely Presented Component Units

A discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Housing Authority of the City of Madera (Housing Authority)

The Housing Authority of the City of Madera (Housing Authority) is a governmental entity authorized in accordance with state law to engage in the development, acquisition, leasing, and administration of low-rent housing programs. The Housing Authority is governed by a Board of Commissioners, which is comprised of members of the City Council. Management of the Housing Authority is appointed and held accountable to the Governing Board. During the fiscal year ending June 30, 2021, the Housing Authority has elected to change its fiscal year end from June 30 to September 30 and to join a consortia with other Housing Authorities in California. The first financial reporting period under the new year-end reporting date consisted of a 15-month accounting period from July 1, 2020 through September 30, 2021. The Housing Authority's September 30 fiscal year-end audited financial statements are included in the City's basic financial statements as a discretely presented component unit. Complete financial statements for the Housing Authority may be obtained from the administrative offices located at 205 North G St, Madera, CA 93637.

The Housing Authority and the City have different fiscal years, which can result in timing differences in transactions between the Housing Authority and the City as noted in the basic financial statements.

B. Basis of Presentation, Accounting and Measurement Focus

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures or expenses, as appropriate. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained in accordance with legal and managerial requirements.

Government-Wide Financial Statements

The City's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities and Changes in Net Position. These statements present summaries of governmental and business-type activities for the City accompanied by a total column. Fiduciary activities of the City are not included in these statements.

These financial statements are presented on an "*economic resources*" measurement focus and the accrual basis of accounting. Accordingly, all of the City's assets and liabilities, including capital assets, as well as infrastructure assets, and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Accounting and Measurement Focus (Continued)

Government-Wide Financial Statements (Continued)

Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from non-exchange transactions are recognized in accordance with the requirements of U.S. GAAP. Program revenues include charges for services, special assessments, and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the statement of activities to present the net cost of each program. Program revenues for the City are classified in three categories:

- Charges for services
- Operating grants and contributions
- Capital grants and contributions

Certain eliminations have been made in regards to interfund activities, payables and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities and Changes in Net Position, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated. The following interfund activities have been eliminated:

- Due to/from other funds
- Advances to/from other funds
- Transfers in/out

Governmental Fund Financial Statements

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures, and Changes in Fund Balances. An accompanying schedule is presented to reconcile and explain the differences in Net Position as presented in these statements to the Net Position presented in the Government-Wide Financial Statements. The City has presented all major funds that met the applicable criteria.

All governmental funds are accounted for on a spending or "*current financial resources*" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Measurable means that the amounts can be estimated, or otherwise determined. Available means that the amounts were collected during the reporting period or soon enough thereafter to be available to finance the expenditures accrued for the reporting period. The City uses an availability period of 60 days for all revenues except grants, which use a six-month availability period.

Sales taxes, property taxes, franchise taxes, gas taxes, motor vehicle in-lieu, transient occupancy taxes, grants and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period to the extent normally collected within the availability period. Other revenue items are considered to be measurable and available when cash is received by the government.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Accounting and Measurement Focus (Continued)

Governmental Fund Financial Statements (Continued)

Revenue recognition is subject to the measurable and available criteria for the governmental funds in the fund financial statements. Exchange transactions are recognized as revenues in the period in which they are earned (i.e., the related goods or services are provided). Locally imposed derived tax revenues are recognized as revenues in the period in which the underlying exchange transaction upon which they are based takes place. Imposed non-exchange transactions are recognized as revenues in the period for which they were imposed. If the period of use is not specified, they are recognized as revenues when an enforceable legal claim to the revenues arises or when they are received, whichever occurs first. Government-mandated and voluntary non-exchange transactions have been recognized as revenues when all applicable eligibility requirements have been met.

The Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach of GASB Statement No. 34.

The City reports the following major governmental funds:

General Fund – This is the primary operating fund of the City. It accounts for all the general revenues of the City not specifically levied or collected for by other City funds and for expenditures related to the rendering of general services by the City.

General Development Impact Fee Fund – This fund accounts for and reports the proceeds of the AB1600 development impact fee monies that are restricted or committed to expenditures for the intended purposes.

Solar Energy Lease Capital Projects Fund – This fund accounts for the construction of the Solar Energy Lease Purchase projects. These projects are funded by the Solar Energy Lease Purchase debt obligations.

Discretely Presented Component Unit Financial Statements

The activities of the Authority closely resemble those of ongoing businesses in which the purpose is to conserve and add to basic resources while meeting operating expenses from current revenues. The Authority provides services on a continuous basis and its activities are substantially financed by revenues derived from user charges and contributions from the member agencies. The Authority utilizes the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized as they are incurred.

Proprietary Fund Financial Statements

Proprietary Fund Financial Statements include a Statement of Net Position, a Statement of Revenues, Expenses, and Changes in Fund Net Position, and a Statement of Cash Flows for each major Proprietary Fund.

A separate column representing internal service funds is also presented in these statements. However, internal service balances and activities have been combined with the governmental activities in the Government-Wide Financial Statements. The City's internal service funds include funds which provide services directly to other City funds. These areas of service include fleet maintenance, facilities maintenance, and technology.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Accounting and Measurement Focus (Continued)

Proprietary Fund Financial Statements (Continued)

Proprietary funds are accounted for using the "*economic resources*" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position. The Statement of Revenues, Expenses, and Changes in Fund Net Position presents increases (revenues) and decreases (expenses) in total Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. In these funds, receivables have been recorded as revenue and provisions have been made for uncollectible amounts.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

The City reports the following major proprietary funds:

Water Fund – This fund is used to account for the provision of water services to the residential, commercial and industrial segments of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing and collection.

Sewer Fund – This fund is used to account for the provision of sewer treatment to residential, commercial and industrial segments of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing and collection.

Solid Waste Fund – This fund is used to account for City's activities related to solid waste removal and street cleaning activities.

Drainage Operations Fund – This fund is used to account for the City's activities related to drainage operations.

Internal service fund balances and activities have been combined with governmental activities in the Government-Wide Financial Statements, and are comprised of the following funds:

Fleet Maintenance Fund - This fund is used to account for the accumulation and allocation of costs associated with the maintenance of the City fleet of vehicles.

Facilities Maintenance Fund - This fund is used to account for the accumulation and allocation of costs associated with the maintenance of the City Hall building and other City buildings.

Technology Fund - This fund is used to account for the costs associated with automation maintenance of the City's various computers, servers and interdepartmental electronic communications.

Fiduciary Fund Financial Statements

Fiduciary fund financial statements include a Statement of Net Position and a Statement of Changes in Fiduciary Net Position. The City's fiduciary funds represent custodial funds and private purpose trust funds. Both custodial funds and the private purpose trust funds are accounted for on the full accrual basis of accounting.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Accounting and Measurement Focus (Continued)

Fiduciary Fund Financial Statements (Continued)

Fiduciary fund types are accounted for according to the nature of the fund. Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. Such funds include and General Deposits Fund. They are also used to account for various assessment districts for which the City acts as an agent for debt service activity, as the City is prohibited from levying additional taxes for these districts. Such funds include Community Facilities Districts.

The City's private purpose trust fund is a fiduciary fund type used by the City to report assets, liabilities and activities of the Successor Agency to the Redevelopment Agency (Successor Agency) for the City of Madera. Its results of operations are presented on the Statement of Changes of Fiduciary Net Position.

Successor Agency of the Redevelopment Agency for the City of Madera

The Redevelopment Obligation Retirement Fund was created to serve as a custodian for the assets and to wind down the affairs of the RDA on February 1, 2012, pursuant to Assembly Bill x1 26. Its purpose is to expeditiously wind down the affairs of the dissolved Redevelopment Agency (RDA). The Successor Agency is a separate public entity from the City, subject to the direction of an oversight board. The City Council serves as the governing board of the Successor Agency. In general, the Successor Agency's assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

In future fiscal years, the Successor Agency will only be allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former RDA until all enforceable obligations of the former RDA have been paid in full and all assets have been liquidated. Based upon the nature of the Successor Agency's custodial role, the Successor Agency has been included in the accompanying basic financial statements as a private purpose trust fund. On March 6, 2015, the California Department of Finance (Finance) approved the City's revised Long-Range Property Management Plan (LRPMP), with the assets deemed for governmental use and future development.

C. Deferred Outflows and Inflows of Resources

The Statement of Net Position reports separate sections for Deferred Outflows of Resources, and Deferred Inflows of Resources, when applicable.

Deferred Outflows of Resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then.

Deferred Inflows of Resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

D. Cash, Cash Equivalents and Investments

The City pools its available cash for investment purposes. The City considers pooled cash and investment amounts, with original maturities of three months or less, to be cash equivalents.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

D. Cash, Cash Equivalents and Investments (Continued)

Investments are reported in the accompanying financial statements at fair value, except for certain investment contracts that are reported at cost because they are not transferable and they have terms that are not affected by changes in market interest rates. Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year, and may result in negative investment income in the accompanying financial statements. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation, maturity, or sale of investments.

Investment income earned by the pooled investments is allocated to the various funds based on each fund's average cash and investment balance, except for investment income associated with funds not legally required to receive pooled investment income which has been assigned to and recorded as revenue of the general fund, as provided by California Government Code Section 53647.

For purposes of the statement of cash flows, amounts reported as cash and cash equivalents, include amounts on deposit in the City pool and any short-term, highly liquid investments that are both readily convertible to known amounts of cash or so near their maturity that they present insignificant risk of changes in value because of changes in interest rates.

Certain disclosure requirements, if applicable, for deposits and investment risks in the following areas:

- Interest rate risk
- Credit risk
 - Overall
 - Custodial credit risk
 - Concentration of credit risk
- Foreign currency risk

U.S. GAAP establishes a framework for measuring fair value, and establishes disclosures about fair value measurement. Investments, unless otherwise specified, recorded at fair value in the Statements of Net Position, are categorized based upon the level of judgment associated with the inputs used to measure their fair value.

In addition, other disclosures are specified including use of certain methods to present deposits and investments, highly sensitive investments, credit quality at year-end and other disclosures.

Levels of inputs are as follows:

Level 1 – Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.

Level 2 – Inputs, other than quoted prices included in Level 1, which are observable for the assets or liabilities through corroboration with market data at the measurement date.

Level 3 – Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the assets or liabilities at the measurement date.

E. Restricted Assets

Amounts reported as restricted assets have been restricted by bond indentures or are to be used for specified purposes based on contract provisions, such as bonded debt service.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

F. Receivables

Customer or trade receivables are reported as “accounts receivable” and are shown net of an allowance for uncollectible accounts based on historical and management estimates.

Noncurrent portions of long-term receivables (e.g., “notes receivable”) due to governmental fund types are reported in their respective balance sheets despite their spending measurement focus. Recognition of governmental fund type revenues represented by noncurrent receivables are deferred until they become current receivables. Noncurrent portions of long-term notes receivable are offset by restricted fund balance in the special revenue funds.

G. Interfund Transactions

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” or “advances to/from other funds” (i.e., the current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the Governmental-Wide Financial Statements as “internal balances.”

H. Inventory

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies and vehicle repair parts. The cost of such inventories is recorded as expenditure/expenses when consumed rather than when purchased. Inventory reported in governmental funds is offset with nonspendable fund balance to show that inventories do not constitute available spendable resources, even though they are a component of fund balance.

I. Prepaid Items

Prepaid items are reported in the governmental funds under the consumption method and are reported as a nonspendable component of fund balance to indicate that they are not spendable for appropriation and are not expendable financial resources.

J. Leases

Lessor

The City is a lessor for leases of special purpose facilities, office and commercial space, and land. The City recognizes leases receivable and deferred inflows of resources in the financial Statements.

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflows of resources are initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflows of resources are recognized as revenue over the life of the lease term in a systematic and rational method.

Key estimates and judgments include how the City determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

J. Leases (Continued)

Lessor (Continued)

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

K. Land Held for Resale

Land held for resale represents land, structures, and related improvements that were acquired for resale as part of the City's redevelopment and grant activities. Land held for resale is accounted for is recorded at lower of cost or net realizable value in accordance with accounting principles generally accepted in the United States of America. Land held for resale, which is not available for current expenditure, is reported in the governmental funds balance sheet as restricted fund balance when proceeds from the sale must be used for restricted purposes or as nonspendable fund balance when such proceeds are not restricted.

L. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are valued at the fair value of the assets on the date on which they were contributed. Donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. The City utilizes a capitalization threshold of \$5,000 - \$25,000 depending on asset type.

Depreciation is charged to operations using the straight-line method over the estimated useful lives of the assets as follows:

<u>Asset Type</u>	<u>Years</u>
Buildings	25-35
Improvements	5-50
Equipment	4-15
Infrastructure	10-50

For all infrastructure systems, the City elected to use the Basic Approach as defined by GASB Statement No. 34 for infrastructure reporting. The City defines infrastructure as the basic physical assets that allow the City to function. The assets include the streets, water purification and distribution system, sewer collection and treatment system, parks and recreation, lands and improvement system, storm water conveyance system, and buildings combined with the site amenities such as parking and landscaped areas used by the City in the conduct of its business. Each major infrastructure system can be divided into subsystems. For example, the street system can be subdivided into pavement, curb and gutters, sidewalks, medians, streetlights, traffic control devices (signs, signals and pavement markings), landscaping and land. These subsystems were not delineated in the basic financial statements. The appropriate operating department maintains information regarding the subsystems.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

M. Long-Term Debt

Government-Wide Financial Statements and Proprietary Fund Financial Statements

Long-term debt and other financial obligations are reported as liabilities in the appropriate funds. Bond premiums and discounts are deferred and amortized over the life of the bonds using straight line method. Bonds payable are reported net of the applicable premium or discount. Issuance costs are expensed when incurred. Gains or losses on bond refunding are reported as either deferred outflows of resources or deferred inflows of resources and amortized over the term of the related debt.

Governmental Fund Financial Statements

The governmental fund financial statements do not present long-term debt but are shown in the Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position. Governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Debt issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Compensated Absences

The City's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide and proprietary fund financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

Government-Wide Financial Statements

For governmental and business-type activities, compensated absences are recorded as expenses when earned.

Fund Financial Statements

For governmental funds, compensated absences are recorded as expenditures in the year paid. The General Fund is typically used to liquidate compensated absences. In proprietary funds, compensated absences are expensed to the various funds in the period they are earned, and such fund's share of the unpaid liability is recorded as a long-term liability of the fund.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

O. Pension Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans (Note 12). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value. The General Fund and Internal Service Funds are typically used to liquidate the pension liability related to the City's governmental activities while the pension liability for Business-type activities is liquidated from the respective Enterprise Funds.

The following timeframes are used for pension reporting:

Valuation date	June 30, 2020
Measurement date	June 30, 2021
Measurement period	July 1, 2020 to June 30, 2021

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period.

P. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB plan, the assets of which are held in an irrevocable trust, and additions to/deductions from the OPEB plan's fiduciary net position have been determined by an independent actuary (Note 13). For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. The Enterprise Funds are used to liquidate the OPEB liability.

Generally accepted accounting principles require that the reported results must pertain to liability and fiduciary net position information within certain defined timeframes. For this report, the following timeframes are used:

Valuation date	June 30, 2020
Measurement date	June 30, 2021
Measurement period	July 1, 2020 to June 30, 2021

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

Q. Fund Balances

As prescribed by U.S. GAAP, governmental funds report fund balance in classifications based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. As of June 30, 2022, fund balances for governmental funds are made up of the following:

- Nonspendable Fund Balance – includes amounts that are (a) not in a spendable form, or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example: deposits and prepaid items.
- Restricted Fund Balance – includes amounts that are restricted for specific purposes stipulated by external resources providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted with the consent of resource providers.
- Committed Fund Balance – includes amounts that have been limited to specific purposes or through adoption of a resolution or an ordinance by the City Council, the highest level of decision-making authority of the City, and resources that have been specifically committed for use in satisfying contractual obligations, as in agreements with third-parties. The City has determined that both a resolution and an ordinance are equally binding. These commitments may be changed or lifted, but only by the same formal action that was used to impose the constraint originally. City Council action to commit fund balance must occur within the fiscal reporting period while the amount committed may be subsequently determined.
- Assigned Fund Balance – includes amounts that are intended to be used by the City for specific purposes. Intent is expressed by (a) the City Council or (b) a body or official to which the City Council has delegated the authority to assign amounts to be used for a specific purpose. This policy delegates to the Finance Director the authority to assign unassigned fund balance amounts where the City’s intent is for those amounts to be used for specific purposes. This delegation of authority is for the sole purpose of reporting these amounts in the annual financial statements.
- Unassigned Fund Balance – includes amounts within the General Fund, the residual resources, either positive or negative in excess of what can be properly classified in one of the other four fund balance categories. Unassigned amounts are technically available for any purpose. Other governmental funds may only report a negative unassigned balance that was created after classification of fund balance in the nonspendable, restricted or committed categories.

When expenditures are incurred for purposes where only unrestricted fund balances are available, the City uses the unrestricted resources in the following order: committed, assigned, and unassigned.

R. Net Position

The financial statements utilize a net position presentation. Net position is classified as follows:

- Net Investment in Capital Assets – This category of net position consists of capital assets, net of accumulated depreciation and reduced by any debt outstanding and any deferred outflows/inflows of resources related to such borrowings that are attributable to the acquisition, construction or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt is offset by unspent proceeds.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

R. Net Position (Continued)

- Restricted Net Position – This category presents restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Those assets are restricted due to external restrictions imposed by creditors (such as through bond covenants), grantors or laws and regulations of other governments and restrictions imposed through constitutional provisions or enabling legislation.
- Unrestricted – This category represents net position of the City that is not restricted for any project or other purpose.

When both restricted and unrestricted resources are available for use, the City's policy is to use restricted resources first, then unrestricted resources that are needed.

S. Property Taxes

Property tax revenue is recognized in the fiscal year for which the taxes have been levied providing they become available. Available means due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter (not to exceed 60 days) to be used to pay liabilities in the current period.

Under California law, property taxes are assessed and collected by the counties at up to 1% of assessed value, plus other increases approved by the voters. The County of Madera, bills and collects the property taxes and remits them to the City at various times throughout the year. Property taxes are attached as an enforceable lien on property as of January 1. Taxes are levied on July 1 and are due in two installments. The first installment is due on November 1, and is payable through December 10 without penalty. The second installment is due February 1, and is payable through April 10 without penalty.

T. Use of Accounting Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions, in some cases when applicable, that affect the amounts in the financial statements and the accompanying notes. Actual results could differ from the estimates.

U. Implementation of New GASB Pronouncements for the Year Ended June 30, 2022

The requirements of the following accounting standards are effective for the purpose of implementation, if applicable to the City, for the year ended June 30, 2022. The financial statements included herein apply the requirements and provisions of these statements, including necessary retroactive adjustments to financial statement classifications and presentations.

GASB Statement No. 87

In June 2017, GASB issued Statement No. 87, *Leases* (GASB Statement No. 87), to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It also establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Implementation of this Statement had a significant effect on the City's financial statements for the year ended June 30, 2022.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

U. Implementation of New GASB Pronouncements for the Year Ended June 30, 2022 (Continued)

GASB Statement No. 89

In June 2018, GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. Application of this statement did not have a material effect on the City’s financial statements for the fiscal year ending June 30, 2022.

GASB Statement No. 92

In January 2020, GASB issued Statement No. 92, *Omnibus 2020*. The primary objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. Application of this statement did not have a material effect on the City’s financial statements for the fiscal year ending June 30, 2022.

GASB Statement No. 93

In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR)—most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. Application of this statement did not have a material effect on the City’s financial statements for the fiscal year ending June 30, 2022.

GASB Statement No. 97

In June 2020, GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – An Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32*. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. Application of this statement did not have a material effect on the City’s financial statements for the fiscal year ending June 30, 2022.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

V. Upcoming Government Accounting Standards Implementations

The City is currently analyzing its accounting practices to determine the potential impact on the financial statements for the following GASB statements:

GASB Statement No. 91

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. Application of this statement is effective for the City's fiscal year ending June 30, 2023.

GASB Statement No. 94

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Application of this statement is effective for the City's fiscal year ending June 30, 2023.

GASB Statement No. 96

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. Application of this statement is effective for the City's fiscal year ending June 30, 2023.

GASB Statement No. 99

In April 2022, GASB issued Statement No. 99, *Omnibus 2022*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. Application of this statement is effective for the Authority's fiscal year ending June 30, 2023.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (Continued)

V. Upcoming Government Accounting Standards Implementations (Continued)

GASB Statement No. 100

In June 2022, GASB issued Statement No. 100, *Accounting Changes and Error Corrections – an Amendment of GASB Statement No. 62*. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. Application of this statement is effective for the Authority’s fiscal year ending June 30, 2024.

GASB Statement No. 101

In June 2022, GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. Application of this statement is effective for the Authority’s fiscal year ending June 30, 2025.

Note 2 – Cash and Investments - City

A. Summary

Cash and investments are presented in the accompanying financial statements for the City at June 30, 2022 as follows:

	Government-Wide Statement of Net Position			Fiduciary Funds	
	Governmental Activities	Business-Type Activities	Total	Statement of Net Position	Total
Cash and investments	\$ 96,818,070	\$ 48,727,542	\$ 145,545,612	\$ 7,888,645	\$ 153,434,257
Restricted cash and investments	2,517,025	1,794,447	4,311,472	47,031	4,358,503
Total cash and investments	\$ 99,335,095	\$ 50,521,989	\$ 149,857,084	\$ 7,935,676	\$ 157,792,760

Cash and investments for the City at June 30, 2022, consisted of the following:

Cash:	
Cash on hand	\$ 6,600
Deposits with financial institution	38,497,023
Total cash	38,503,623
Investments:	
Investments	114,923,192
Investments held by bond trustee	4,358,503
Total investments	119,281,695
Total cash and investments	157,785,318

As part of the City's investment guidelines, the City continually seeks ways to increase investment income while not risking investment principal. One way the City accomplishes this is by “sweeping”, on a nightly basis, any excess cash held in its non-interest-bearing checking account to an interest-bearing money market account with the same bank.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 2 – Cash and Investments – City (Continued)

B. Demand Deposits

The carrying amounts of the City's demand deposits were \$38,497,023 at June 30, 2022. Bank balances were \$38,979,463 at that date, the total amount of which was collateralized or insured with securities held by the pledging financial institutions in the City's name as discussed below.

The California Government Code requires California banks and savings and loan associations to secure the City's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the City's name.

The market value of pledged securities must equal at least 110% of the City's cash deposits. California law also allows institutions to secure City's deposits by pledging first trust deed mortgage notes having a value of 150% of the City's total cash deposits. The City may waive collateral requirements for cash deposits, which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation ("FDIC"). The City, however, has not waived the collateralization requirements.

C. Investments Authorized by the California Government Code and the City's Investment Policy

The table below identifies the investment types that are authorized for the City by the California Government Code and the City's investment policy. The table also identifies certain provisions of the California Government Code (or the City's investment policy, if more restrictive) that address interest rate risk and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California Government Code or the City's investment policy.

Authorized Investment Types	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer*
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptances	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

* Based on state law requirements or City investment policy requirements, whichever is more restrictive.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 2 – Cash and Investments – City (Continued)

D. Investments Authorized by Debt Agreements

Investment of debt proceeds held by fiscal agents are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the City's investment policy. The table below identifies the investment types that are authorized for investments held by fiscal agents. The table also identifies certain provisions of these debt agreements that address interest rate risk and concentration of credit risk.

Authorized Investment Types	Maximum Maturity	Maximum Percentage Allowed	Maximum Investment in One Issuer
U.S. Treasury Obligations	None	None	None
U.S. Agency Securities	None	None	None
Banker's Acceptances	180 days	None	None
Commercial Paper	270 days	None	None
Money Market Mutual Funds	N/A	None	None
Investment Contracts	30 years	None	None

E. Fair Value Measurement

As of June 30, 2022, the City's investments had the following recurring fair value measurements:

Investments measured by fair value level:	June 30, 2022	Level 2
Negotiable Certificates of Deposit	\$ 13,807,035	\$ 13,807,035
Municipal bonds	1,826,720	1,826,720
U.S. Treasury Obligations	1,847,670	1,847,670
U.S. Government Securities:		
Federal Home Loan Bank	9,267,690	9,267,690
Federal Farm Credit Bank	4,009,646	4,009,646
Federal Home Loan Mortgage Corporation	1,894,160	1,894,160
Federal National Mortgage Association	2,783,630	2,783,630
Federal Agricultural Mortgage Corporation	1,432,375	1,432,375
U.S. Corporate Bonds	12,135,696	12,135,696
Total investments by fair value level	49,004,622	\$ 49,004,622
Investments not subject to the fair value hierarchy:		
Local Agency Investment Fund	60,594,968	
Money market mutual funds	5,202,105	
Certificates of deposit	4,480,000	
Total investments not subject to the fair value hierarchy	70,277,073	
Total investments	\$ 119,281,695	

Debt and equity securities classified in Level 2 are valued using the following approaches:

- U.S. Treasuries, U.S. Agencies, and Commercial Paper: quoted prices for identical securities in markets that are not active;
- Medium term notes: quoted prices for similar securities in active markets; and
- Asset-backed securities: recent appraisals of the asset value.

Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 2 – Cash and Investments – City (Continued)

F. Risk Disclosure

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rate will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity. For purposes of the schedule shown on the next page, any callable securities are assumed to be held to maturity.

Investment Type	Total	Investment Maturities				
		1 year or less	1 - 2 Years	2 - 3 Years	3 - 4 Years	5+ Years
Local Agency Investment Fund	\$ 60,594,968	\$ 60,594,968	\$ -	\$ -	\$ -	\$ -
Money market mutual funds	843,602	843,602	-	-	-	-
Municipal bonds	1,826,720	-	-	911,210	-	915,510
Certificates of deposit	4,480,000	2,488,000	996,000	249,000	-	747,000
Negotiable certificates of deposit	13,807,035	1,960,065	1,869,390	3,284,416	5,768,976	924,188
U.S. Treasury Obligations	1,847,670	-	-	933,330	914,340	-
U.S. Government Securities:						
Federal Home Loan Bank	9,267,690	-	-	2,863,350	5,486,700	917,640
Federal Farm Credit Bank	4,009,646	-	966,070	3,043,576	-	-
Federal Home Loan Mortgage Corporation	1,894,160	976,570	-	-	917,590	-
Federal National Mortgage Association	2,783,630	-	-	938,900	1,844,730	-
Federal Agricultural Mortgage Corporation	1,432,375	-	482,545	949,830	-	-
U.S. corporate bonds	12,135,696	4,270,345	1,255,681	3,752,970	1,908,750	947,950
Held by bond trustee:						
Money market mutual funds	4,358,503	4,358,503	-	-	-	-
Total investments	\$ 119,281,695	\$ 75,492,053	\$ 5,569,686	\$ 16,926,582	\$ 16,841,086	\$ 4,452,288

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. However, some issuers do not seek a credit rating. For instance, the California Local Agency Investment Fund (LAIF) has not sought or received a credit rating. In these cases, the purchaser is solely responsible for performing their own due diligence before purchasing an investment or participating in an external investment pool. Certificates of deposit of \$250,000 or less are fully insured by the Federal Deposit Insurance Corporation (FDIC), and therefore, do not seek a credit rating.

Federal National Mortgage Association	2,783,630	AA-	2,783,630	-
Federal Agricultural Mortgage Corporation	1,432,375	AA-	1,432,375	-
U.S. corporate bonds	12,135,696	AA	12,135,696	-
Held by bond trustee:				
Money market mutual funds	4,358,503	AA+	-	4,358,503
Total investments	\$ 119,281,695		\$ 33,370,867	\$ 85,910,828

Disclosure Relating to Concentration of Credit Risk

The investment policy of the City contains no limitations on the amount that can be invested in any one issuer beyond that stipulated in the Government Code. GASB Statement No. 40 requires disclosure by amount and issuer, of investments in any one issuer that represent 5% or more of total investments. At June 30, 2022, the following investments in one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represents 5% or more of the City's total investments.

Issuer	Investment Type	Reported Amount	Percentage of Portfolio
Federal Home Loan Banks	U.S. Government Securities	\$ 9,267,690	7.77%

Disclosures Relating to Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 2 – Cash and Investments – City (Continued)

F. Risk Disclosure (Continued)

Disclosures Relating to Custodial Credit Risk (Continued)

The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. At June 30, 2022, the City's deposits (bank balances) were collateralized under California Law.

G. Investment in State Investment Pool

The City is a participant in LAIF which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The City's investments in LAIF at June 30, 2022 included a portion of pool funds invested in Structure Notes and Asset-Backed Securities:

Structured Notes are debt securities (other than asset-backed securities) whose cash-flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

Asset-Backed Securities, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

As of June 30, 2022, the City had \$60,594,968 invested in LAIF, which had invested 1.88% of the pool investment funds in Structured Notes and Asset-Back Securities. LAIF determines fair value on its investment portfolio based on market quotations for those securities where market quotations are readily available and based on amortized cost or best estimate for those securities where market value is not readily available. The City valued its investments in LAIF as of June 30, 2022, by multiplying its account balance with LAIF times a fair value factor determined by LAIF. This fair value factor was determined by dividing all LAIF participants' total aggregate amortized cost by total aggregate fair value. The fair value of the City's position in the pool is the same as the value of the pool shares. The credit quality rating of LAIF is unrated as of June 30, 2022.

Note 3 – Cash and Investments – Component Unit

A. Summary

Cash and investments are presented in the accompanying financial statements for the Component Unit at September 30, 2022 as follows:

	Component Unit
Cash and investments	\$ 7,419,157
Restricted cash and investments	2,527,127
Total cash and investments	\$ 9,946,284

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 3 – Cash and Investments – Component Unit (Continued)

A. Summary (Continued)

Cash and investments for the Component Unit at September 30, 2021, consisted of the following:

Cash:	
Cash on hand	\$ 100
Deposits with financial institution	3,238,638
Total cash	<u>3,238,738</u>
Investments:	
Investments	6,707,546
Total investments	<u>6,707,546</u>
Total cash and investments	<u><u>9,946,284</u></u>

B. Demand Deposits

The carrying amounts of the Component Unit's demand deposits were \$3,238,638 at September 30, 2021. Bank balances were \$3,240,638 at that date, the total amount of which was collateralized or insured with securities held by the pledging financial institutions in the Component Unit's name as discussed below.

The California Government Code requires California banks and savings and loan associations to secure the Component Unit's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the Component Unit's name.

The market value of pledged securities must equal at least 110% of the Component Unit's cash deposits. California law also allows institutions to secure Component Unit's deposits by pledging first trust deed mortgage notes having a value of 150% of the Component Unit's total cash deposits. The Component Unit may waive collateral requirements for cash deposits, which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation ("FDIC"). The Component Unit, however, has not waived the collateralization requirements.

C. Investments Authorized by the California Government Code and the Housing Authority's Investment Policy

The Housing Authority's investment policy only authorizes investment in the Local Agency Investment Fund (LAIF) administered by the State of California. The Housing Authority's investment policy does not contain any specific provisions intended to limit its exposure to interest rate risk, credit risk, and concentration of credit risk.

D. Risk Disclosure

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rate will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the Component Unit manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

City of Madera
Notes to the Basic Financial Statements (Continued)

Note 3 – Cash and Investments – Component Unit (Continued)

D. Risk Disclosure (Continued)

Information about the sensitivity of the fair values of the Component Unit's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the Component Unit's investments by maturity. For purposes of the schedule shown on the next page, any callable securities are assumed to be held to maturity.

Investment Type	Total	Investment Maturities
		1 year or less
Local Agency Investment Fund	\$ 6,707,546	\$ 6,707,546

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. However, some issuers do not seek a credit rating. For instance, the California Local Agency Investment Fund (LAIF) has not sought or received a credit rating. In these cases, the purchaser is solely responsible for performing their own due diligence before purchasing an investment or participating in an external investment pool. Certificates of deposit of \$250,000 or less are fully insured by the Federal Deposit Insurance Corporation (FDIC), and therefore, do not seek a credit rating.

Presented below is the minimum rating required by (where applicable) the California Government Code, the Component Unit's investment policy, or debt agreements, and the actual rating as of year-end for each investment type.

Investment Type	Total	Minimum Legal Rating	Not Rated
Local Agency Investment Fund	\$ 6,707,546	N/A	\$ 6,707,546

Disclosure Relating to Concentration of Credit Risk

The investment policy of the Component Unit contains no limitations on the amount that can be invested in any one issuer beyond that stipulated in the Government Code. GASB Statement No. 40 requires disclosure by amount and issuer, of investments in any one issuer that represent 5% or more of total investments. At September 30, 2021, the had no investments in one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represents 5% or more of the Component Unit's total investments.

Disclosures Relating to Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 3 – Cash and Investments – Component Unit (Continued)

D. Risk Disclosure (Continued)

Disclosures Relating to Custodial Credit Risk

The California Government Code and the Component Unit's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure Component Unit deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. At September 30, 2021, the Component Unit's deposits (bank balances) were collateralized under California Law.

E. Investment in State Investment Pool

The Component Unit is a participant in LAIF which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The Component Unit's investments in LAIF at June 30, 2022 included a portion of pool funds invested in Structure Notes and Asset-Backed Securities:

Structured Notes are debt securities (other than asset-backed securities) whose cash-flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

Asset-Backed Securities, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

As of September 30, 2021, the Component Unit had \$6,707,546 invested in LAIF, which had invested 2.05% of the pool investment funds in Structured Notes and Asset-Back Securities. LAIF determines fair value on its investment portfolio based on market quotations for those securities where market quotations are readily available and based on amortized cost or best estimate for those securities where market value is not readily available. The Component Unit valued its investments in LAIF as of September 30, 2021, by multiplying its account balance with LAIF times a fair value factor determined by LAIF. This fair value factor was determined by dividing all LAIF participants' total aggregate amortized cost by total aggregate fair value. The fair value of the Component Unit's position in the pool is the same as the value of the pool shares. The credit quality rating of LAIF is unrated as of September 30, 2021.

Low and Moderate Income Housing Fund	7,000	-	7,000
Total City	\$ 15,493,649	\$ (7,490,072)	\$ 8,003,577

Residential Rehab Special Revenue Fund

The City was awarded a \$3 million-dollar federal grant from the HOME Investment Program (HOME) administered through the State of California. The proceeds of this grant were used to provide a \$3 million loan to Madera Pacific Associates (MPA) for multi-family rental housing projects serving low and very low-income individuals through subordinate loans with terms up to 55 years. MPA is required to repay the loan through the net cash flow payments it receives from project operations. The loan balance at June 30, 2022 is \$2,962,234, which is recorded as a note receivable in the Residential Rehab special revenue fund.

The City was awarded a \$5 million-dollar federal grant from the HOME Investment Program (HOME) administered through the State of California. The proceeds of this grant were used to provide a \$5 million loan to 100 Stadium Rd., L.P. for multi-family rental housing projects serving low and very low-income individuals through subordinate loans with terms up to 55 years. 100 Stadium Rd., L.P. is required to repay the loan through the net cash flow payments it receives from project operations. The loan balance at June 30, 2022 is \$5,034,343, which is recorded as a note receivable in the Residential Rehab special revenue fund.

Forgivable Loans

The City administers the first time homebuyer, housing rehabilitation, and small business loan programs funded with various grants (i.e. CDBG, HOME, CalHome, NSP, etc.). Under these programs, individuals with incomes below certain levels are eligible to receive low interest loans. These loans are secured by deeds of trust on the properties. Deferred payment loans receivable under these forgivable loans are not required to be paid back unless the participating homeowner sells, transfers title to the property, or discontinues residence in the dwelling at which time the full amount of the deferred loan is due. These deferred payment loans are “nonperforming loans” and are not recorded as loans receivable in the financial statements.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 4 – Notes Receivables (Continued)

A. Governmental Activities (Continued)

Loans and related items as of June 30, 2022 are summarized as follows:

Loan Type	Outstanding Loan Balance June 30, 2022	Due
First-time homebuyer	\$ 5,431,572	30 years
Housing rehabilitation	1,506,296	30 years
Small business	740,162	10 years
Total	\$ 7,678,030	

Low and Moderate Income Housing Asset Special Revenue Fund

The Low and Moderate Income Housing Asset special revenue fund reports \$7,000 of notes receivable. These were loans funded from the former Redevelopment Agency to developers for construction of affordable housing or rehabilitation within the boundaries of the Redevelopment Project Area. These low interest-bearing loans are secured by deeds of trust. Maturities vary according to terms and disposition of property.

B. Component Unit

	Notes Receivable Balance September 30, 2021	Allowance for Doubtful Accounts Balance September 30, 2021	Financial Statement Balance September 30, 2021	Interest Receivable, net Balance September 30, 2021
Component Unit:				
Housing Authority for the City of Madera:				
MORES Yosemite Manor, LP Loan	\$ 2,506,201	\$ -	\$ 2,506,201	\$ 533,984
MORES Corporation Loans	440,872	-	440,872	2,674
Total Component Unit	\$ 2,947,073	\$ -	\$ 2,947,073	\$ 536,658

The Housing Authority has a note receivable of \$2,506,201, due from MORES Yosemite Manor, L.P., secured by first deed on land and building subject to note. Interest bearing on the outstanding principal balance at the rate of 4.21%, compounded annually. The term of the note commenced May 14, 2008 and expires on December 31, 2063. The note is due and payable from residual receipts per the loan agreement. As of September 30, 2021, the outstanding interest receivable amounted to \$1,416,709. Management has established an allowance of \$882,725 as of September 30, 2021, due to the uncertainty of collectability.

The Housing Authority has a promissory note made from March 2010 to May 2014 amounting to \$440,872, due from Madera Opportunities for Resident Enrichment Services, Inc. (MORES), a California non-profit corporation. The promissory note is subject to various interest rates, payment start dates, and due dates. The note is secured by first and second deeds of trusts on buildings subject to the notes. The notes are due and payable from rental receipts per the loan agreements. As of September 30, 2021, the outstanding interest receivable amounted to \$2,674.

2019 Solar Energy Finance Purchase (Direct Borrowing)

On December 30, 2019, the City entered into an equipment finance purchase agreement in a direct placement transaction with Bank of America for an energy improvement and upgrade project (2019 Solar Equipment Finance Purchase) in the amount of \$19,432,000. The energy project improvements include HVAC upgrade, LED lighting, solar streetlights, EV charging stations and PV solar.

The finance purchase transaction closed on December 30, 2019. The interest was capitalized for the first two years, with interest only payments beginning June 1, 2020 through June 1, 2021 and principal and interest due in semi-annual payments, payable June 1st and December 1st thereafter, with an interest rate of 2.77%. At June 30, 2022, the outstanding balance was \$18,644,000.

The annual debt service requirements at June 30, 2022 are as follows:

Year Ending June 30,	Principal	Interest	Total
2023	\$ 810,000	\$ 505,220	\$ 1,315,220

2019 Solar Energy Lease Purchase (Direct Borrowing) (Continued)

The City entered into finance purchase agreement whereby the City acquired certain capital assets and financed them to the City with the option to purchase. Unspent finance purchase proceeds are included in restricted cash and investments. The leased assets are included in capital assets and are summarized by major asset class below:

Unspent finance purchase proceeds	\$ 2,517,025
Construction in progress	18,220,272
Total	<u>\$ 20,737,297</u>

2019 Refunding of the Police Facility (Police Facility Commercial Loan) (Private Borrowing)

In December 2005, the City entered into an agreement with La Salle Bank (and subsequently sold to Capital One Public Funding, LLC) to finance a portion of the construction cost for the police facility. The entire purchase price of the police station was \$5,200,000. The financed portion of the police station was \$1,500,000 and was payable over a period of twenty years.

On January 1, 2018, the agreements was refunded and the Financing Authority paid the City an advance rental for the use and right to the possession of the Police and Golf Course facilities for a total of \$2,553,000. The lease was then assigned to Zions Bank/California Bank & Trust on the same day and named the Police Facility Commercial Loan. The bonds are due in annual installments of \$50,900 to \$61,600 beginning May 2018 with interest rate fixed 2.760% per annum payable semi-annually. Total principal and interest remaining on the agreement is payable through 2026. At June 30, 2022, the outstanding balance was \$414,200.

The annual debt service requirements at June 30, 2022 are as follows:

Year Ending June 30,	Principal	Interest	Total
2023	\$ 114,400	\$ 10,648	\$ 125,048
2024	117,400	7,471	124,871
2025	120,800	4,206	125,006
2026	61,600	850	62,450
Total	<u>\$ 414,200</u>	<u>\$ 23,175</u>	<u>\$ 437,375</u>

2019 Lease Revenue Bonds (Fire Station) (Public Offering)

The Madera Public Financing Authority issued the Lease Revenue Bonds 2019 on June 1, 2019 for \$4,005,000. The proceeds of the bonds will be used to finance the construction of a fire station. The City entered into a Facilities Lease Agreement with the Madera Public Financing Authority to make rental payments. The Bonds are due in annual installments of \$230,000 to \$307,000 through February 1, 2039 with interest payable semiannually on February 1 and August 1 of each year with interest rate from 3.00% to 5.00%. At June 30, 2022 the outstanding balance was \$3,615,000.

2022-2036	1,928,000	94,135	2,022,135
Total	\$ 6,100,000	\$ 1,078,814	\$ 7,178,814

2018 Refunding of the 1993 Variable Rate Demand Bonds (Golf Course Commercial Loan) (Private Placement)

In May 1993, the Financing Authority issued Variable Rate Demand Bonds in the aggregate principal of \$5,280,000. The proceeds were used to redeem \$4,835,000 of its December 8, 1989 Lease Revenue Bonds, Series A, and \$262,450 for additional Golf Course construction.

On January 1, 2018, the Bonds were refunded and the Financing Authority paid the City an advance rental for the use and right to the possession of the Golf Course and Police facilities for a total of \$2,553,000. The lease was then assigned to Zions Bank/California Bank & Trust on the same day and named the Golf Course Commercial Loan. The loan is due in annual installments of \$138,100 (\$10,600 first year) to \$161,800 beginning May 2018 with interest rate fixed 3.190% per annum payable semi-annually. Total principal and interest remaining on the agreement is \$493,225, payable through 2024. At June 30, 2022, the outstanding balance was \$477,900.

The annual debt service requirements at June 30, 2022 are as follows:

Year Ending June 30,	Principal	Interest	Total
2023	\$ 316,100	\$ 12,744	\$ 328,844
2024	161,800	2,581	164,381
Total	\$ 477,900	\$ 15,325	\$ 493,225

Water and Wastewater Refunding Revenue Bonds, Series 2015 (Public Offering)

Water and Wastewater Refunding Revenue Bonds, Series 2015 were issued by the Financing Authority in December 2015 for \$30,140,000. Proceeds from the bonds were used to refund \$30,440,000 of its Water and Wastewater Refunding Revenue Bonds, Series 2016. The bonds are due in annual installments of \$70,000 to \$2,080,000 through March 1, 2036, with interest payable semiannually on September 1 and March 1 of each year at 3.700%. At June 30, 2022, the outstanding balance of the Water and Wastewater Revenue Bonds was \$23,230,000.

Water Refunding Revenue Bonds, Series 2019 (Public Offering)

Water Refunding Bonds, Series 2019 were issued by the Financing Authority in December 2019 for \$9,016,903. The City used the proceeds to refund the outstanding principal of the Water Revenue Bonds, Series 2010 in the amount of \$9,530,000. The bonds are due semi-annual installments of \$204,890 to \$312,774 with interest rate fixed at 2.64% per annum payable semi-annually. Total principal and interest remaining on the bonds is payable through 2037. At June 30, 2022 the outstanding principal and interest balance was \$9,511,301. The aggregate debt service payments of the new debt are \$2,587,313 less than the old debt. The issuance of the new debt and refunding of the old debt resulted in an economic gain (the difference between the net present value of the old debt and new debt service payments) of approximately \$2,053,508.

The Financing Authority has pledged a portion of future water and wastewater revenue to repay the 2019 Water Revenue Bonds. For the year ended June 30, 2022, total principal and interest paid was \$632,740, and net revenues were \$6,850,805.

The annual debt service requirements at June 30, 2022 are as follows:

Year Ending June 30,	Principal	Interest	Total

Tax Allocation Refunding Bonds, Series 2018A and 2018B (Public Offering)

On July 17, 2018, the Successor Agency to the Former Madera Redevelopment Agency issued \$31,445,000 of Tax Allocation Refunding Bonds, Series 2018A and \$4,065,000 of Tax Allocation Refunding Bonds, Series 2018B (collectively the “2018 TARBs”) to (a) refund four outstanding series of bonds payable (the 1998 Tax Allocation Redevelopment Project Bonds, the 2003 Tax Allocation Refunding and Redevelopment Project Bonds, the Madera Redevelopment Agency Subordinate Tax Allocation Bonds, Series 2008A, and the Madera Redevelopment Agency Housing Set-Aside Subordinate Tax Allocation Bonds, Series 2008B) from tax increment revenue generated in the Madera Redevelopment Project Area (the “Project Area”), (b) fund a reserve account, and (c) pay the costs of issuance of the bonds. The 2018 TARBs are payable from and secured by a pledge of tax revenues to be derived from the Project Area.

The 2018 TARBs consist of serial bonds maturing from 2019 through 2038 in annual installments of \$390,000 to \$2,405,000. Interest is due and payable semi-annually on March 1 and September 1 of each year at rates ranging from 3.0% to 5.0% commencing March 1, 2019. Annual principal on the bonds is due on September 1 of each year. The bonds are subject to federal arbitrage requirements. The aggregate debt service payments of the new debt are \$11,314,301 less than the old debt. The issuance of the new debt and refunding of the old debt resulted in an economic gain (the difference between the net present value of the old debt and new debt service payments) of approximately \$8,659,587.

A reserve account is required to be maintained in the amount of the lesser of (i) 10% of the original aggregate principal amount of the 2018 TARBs, or (ii) 125% of the average annual debt service with respect to the 2018 TARBs, or (iii) the maximum annual debt service with respect to the 2018 TARBs. As of June 30, 2022, the reserve requirement was met through the City’s purchase of a surety policy in-lieu of the cash reserve requirement. The total principal and interest outstanding at June 30, 2022 is \$44,458,260.

Note 10 – Special Assessment Debt with No City Commitment

The City issued special tax and assessment bonds on behalf of property owners, pursuant to the Improvement Bond Act of 1915 and the Mello-Roos Community Facilities Act of 1982, to finance the acquisition and construction of certain infrastructure improvements within the assessment districts and community facilities districts.

The City acts solely as an agent for those paying special tax and assessments and remits the amounts collected to the bondholders of these fixed-rate Improvement Bond Act of 1915 and Mello-Roos Community Facilities Act of 1982 issues. The City is acting as a custodian and is in no way liable for the special assessment debt and, accordingly, the debt is not recorded in these financial statements.

On January 1, 2018, the City of Madera, on behalf of the City of Madera Community Facilities District No. 2006-1, issued the City of Madera Community Facilities District No. 2006-1 Special Tax Refunding Bonds Series 2018 to refund the CFD 2006-1 Series Special Tax Bond for the purpose of creating annual debt savings. Total debt service payments were reduced by \$67,278. The amount of principal outstanding as of June 30, 2022 is \$2,157,060. The bonds are not a general obligation of the City but are limited obligations, payable solely from special tax and assessments.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 10 – Special Assessment Debt with No City Commitment (Continued)

The City has no obligation beyond the balances in the designated custodial funds for any delinquent assessment district bond payments. If delinquencies occur beyond the amounts held in the reserve funds created from bond proceeds, the City has no duty to pay the delinquency out of the available funds of the City. Neither the faith and credit nor the taxing power of the City, or the State of California, or any political subdivision thereof is pledged to the payment of these bonds.

Noncommittal debt amounts issued and outstanding at June 30, 2022 are as follows:

	Original Amount	Outstanding Balance June 30, 2022
CFD 2006-1, Series Special Tax Bonds Refunding Bonds Series 2019	\$ 2,452,228	\$ 2,157,060

Note 11 – Compensated Absences

A summary of changes in the compensated absences balances for the business-type activities for the year ended June 30, 2022 is as follows:

	Balance July 1, 2021	Additions	Deletions	Balance June 30, 2022	Classification Due within One Year	Due in More Than One Year
Compensated absences	\$ 403,037	\$ 377,683	\$ (317,475)	\$ 463,245	\$ 311,861	\$ 151,384

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 11 – Compensated Absences (Continued)

B. Business-Type Activities (Continued)

Compensated absences in the business-type activities are obligations of the following funds:

Water Fund	\$ 206,039
Sewer Fund	117,468
Solid Waste Fund	61,603
Drainage Operations Fund	32,802
Local Transit Fund	34,362
Airport Fund	10,971
Total	\$ 463,245

C. Component Unit

A summary of changes in the compensated absences balances for the component unit for the fifteen month period ended June 30, 2020 is as follows:

				Balance September 30, 2021	Classification	
	Balance July 1, 2020	Additions	Deletions		Due within One Year	Due in More Than One Year
Compensated absences	\$ 87,950	\$ 22,765	\$ (38,216)	\$ 72,499	\$ 36,120	\$ 36,379

All compensated absences liabilities in the component unit belong to the Housing Authority of the City of Madera.

Note 12 – Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the City obtains insurance coverage.

The City is a member of the Central San Joaquin Valley Risk Management Authority (CSJVRMA), a public entity risk pool for workers' compensation and general liability insurance. The CSJVRMA is a consortium of fifty-five cities located in California's San Joaquin Valley. It was established under the provisions of California Government Code Section 6500 et. seq. CSJVRMA is governed by a Board of Directors, consisting of one member appointed by each member city. The day-to-day business operations are handled by a management group employed by CSJVRMA. The relationship between the City and CSJVRMA is such that the CSJVRMA is not considered a component unit of the City for financial reporting purposes.

General Liability Insurance coverage is addressed via retention maintained by the City and participation in CSJVRMA. The City maintains a self-insured retention level of \$100,000 and participates in the CSJVRMA risk pool for coverage up to \$1,000,000. CSJVRMA participates in an excess pool, which provides coverage from \$1,000,000 to \$29,000,000.

Workers' Compensation coverage is also addressed via a retention maintained by the City and participation in CSJVRMA. The City maintains a self-insured retention level of \$100,000 and participates in the CSJVRMA risk pool for additional coverage up to \$250,000. CSJVRMA also participates in an excess pool which provides workers' compensation coverage from \$250,000 to \$500,000 and purchases excess insurance of approximately \$500,000 to the statutory limit.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 12 – Risk Management (Continued)

Public entity risk pools are formally organized and separated entities established under the Joint Exercise of Powers Act of the State of California. As separate legal entities, those entities exercise full powers and authorities within the scope of the related Joint Powers Agreements including the preparation of annual budgets, accountability for all funds, the power to make and execute contracts and the right to sue and be sued. Each risk pool is governed by a board consisting of representatives from member municipalities. Each board controls the operations of the respective risk pool, including selection of management and approval of operating budgets, independent of any influences by member municipalities beyond their representation of that board. Obligations and liabilities of these risk pools are not the City's responsibility.

CSJVRMA is currently operating as a common risk management and insurance program for 54 member cities. The program's general objectives are to formulate, develop, and administer, on the behalf of the member cities, a program of insurance, to obtain lower cost for that coverage, and to develop a comprehensive loss control program. A member may withdraw from CSJVRMA only by giving six-month notice. Cities applying for membership in CSJVRMA may do so on approval of a two-thirds vote of the board of CSJVRMA.

The latest financial information of the CSJVRMA for fiscal year ended June 30, 2022, is as follows:

Total Assets	\$ 150,837,823
Total Liabilities	\$ 118,663,929
Net Position	\$ 32,173,894
Operating Revenues	\$ 66,885,024
Operating Expenses	\$ 47,584,363
Nonoperating Revenues (Expenses)	\$ (7,973,544)
Change in Net Position	\$ 11,327,117

Note 13 – Pension Plans (Continued)

B. City Miscellaneous Plan

Plan Description

Substantially all City employees working the equivalent of 1,000 hours per fiscal year are eligible to participate in the Miscellaneous Plan Agent multiple-employer defined benefit plan or the Safety Plan Cost-sharing multiple-employer defined benefit administered by California Public Employees Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employers. Benefit Provisions under the Plans are established by State statutes within the Public Employee's Retirement Law. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office – 400 P Street, Sacramento, CA 95814.

Employees Covered

At June 30, 2021, the measurement date, the following employees were covered by the benefit terms for the Plan:

Active employees	157
Transferred and terminated employees	265
Retired employees and beneficiaries	258
Total	680

Benefits Provided

CalPERS provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Classic CalPERS member becomes eligible for service retirement upon attainment of age 55 with at least 5 years of credited service. PEPRA miscellaneous members become eligible for service retirement upon attainment of age 62 with at least 5 years of service. The service retirement benefit is a monthly allowance equal to the product of the benefit factor, years of service, and final compensation. The final compensation is the monthly average of the member's highest 36 full-time equivalent monthly pay.

Following are the benefit provisions for each plan:

	City Miscellaneous Plan		
	Prior to January 1, 2011	January 1, 2011 thru January 1, 2013	On or After January 1, 2013
Hire Date			
Benefit formula	2.5% @ 55	2% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	Monthly for life	Monthly for life	Monthly for life
Retirement age	50 - 55	50 - 63	52 - 67
Monthly benefits, as a % of eligible compensation	2.000% to 2.500%	1.092% to 2.418%	1.000% to 2.500%
Required employee contribution rates	8.00%	7.000%	6.250%
Required employer contribution rates	10.060%	14.154%	10.060%
Final Annual Compensation	1 year	1 year	1 year

City of Madera

Note 13 – Pension Plans (Continued)

B. City Miscellaneous Plan (Continued)

Contributions

Section 20814(c) of the California Public Employees' Retirement Law ("PERL") requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the year ended June 30, 2022, the employer contributions made for the Miscellaneous Plan was \$3,668,068.

Net Pension Liability

The City's net pension liability is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of the Plan is measured as of June 30, 2021, using an annual actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown on the following page.

Actuarial Assumptions

The total pension liabilities in the June 30, 2020 actuarial valuations were determined using the following actuarial assumptions:

Actuarial Cost Method	Entry Age Normal in accordance with the requirement of GASB Statement No. 68
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	2.75%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.25%
Mortality Rate Table	Derived using CalPERS' Membership Data for all Funds. The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2020 valuation were based on the results of December 2017 actuarial experience study for the period 1997 to 2015. Further details of the Experiences Study can be found on the CalPERS website.

Discount Rate

In determining the long-term expected rate of return, CalPERS took into account, both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 13 – Pension Plans (Continued)

B. City Miscellaneous Plan (Continued)

Discount Rate (Continued)

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years	Real Return Years
		1 - 10 ¹	11 + ²
Global equity	50.00%	4.80%	5.98%
Global fixed income	28.00%	1.00%	2.62%
Inflation sensitive assets	0.00%	0.77%	1.81%
Private equity	8.00%	6.30%	7.23%
Real assets	13.00%	3.75%	4.93%
Liquidity	1.00%	0.00%	-0.92%
	<u>100.00%</u>		

¹ An expected inflation of 2.00% was used for this period.

² An expected inflation of 2.92% was used for this period.

The discount rate used to measure the total pension liability was 7.15% for the plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15% is applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report called “GASB Crossover Testing Report” that can be obtained from the CalPERS website under the GASB 68 Section.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the City’s net pension liability, calculated using the discount rate, as well as what the City’s net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	Plan's Aggregate Net Pension Liability/(Asset)		
	Discount Rate - 1% (6.15%)	Current Discount Rate (7.15%)	Discount Rate + 1% (8.15%)
Miscellaneous Plan - 53	\$ 31,629,858	\$ 19,246,613	\$ 8,991,674

Changes in the Net Pension Liability

The following table shows the changes in net pension liability recognized over the measurement period:

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balance at June 30, 2020 (Valuation Date)	\$ 95,584,677	\$ 65,306,722	\$ 30,277,955
Changes in the year:			
Service cost	1,606,099	-	1,606,099
Interest on the total pension liabilities	6,643,295	-	6,643,295
Changes in assumptions	-	-	-
Differences between expected and actual experience	(711,985)	-	(711,985)
Benefit payments, including refunds of members contributions	(5,525,027)	(5,525,027)	-
Contributions - employer	-	3,088,563	(3,088,563)
Contributions - employee	-	724,414	(724,414)
Net investment income	-	14,821,011	(14,821,011)
Administrative expenses	-	(65,237)	65,237
Net changes	2,012,382	13,043,724	(11,031,342)
Balance at June 30, 2021 (Measurement Date)	\$ 97,597,059	\$ 78,350,446	\$ 19,246,613

Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended June 30, 2022, the City recognized pension expense in the amount of \$664,397 for the miscellaneous plans.

The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized over 5-years straight line. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period.

The Expected Average Remaining Service Lifetime (“EARSL”) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired) in the risk pool. The EARSL for the Miscellaneous Plan for the 2020-21 measurement period is 2.6 years, which was obtained by dividing the total service years of 1,773 (the sum of remaining service lifetimes of the active employees) by 679 (the total number of participants: active, inactive, and retired).

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 13 – Pension Plans (Continued)

B. City Miscellaneous Plan (Continued)

Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

At June 30, 2021 the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred outflows of Resources	Deferred inflows of Resources
Pension contributions made subsequent to measurement date	\$ 3,668,068	\$ -
Difference between projected and actual earning on pension plan investments	-	(7,415,410)
Differences between expected and actual experience	85,206	(690,953)
Total	<u>\$ 3,753,274</u>	<u>\$ (8,106,363)</u>

For the City Miscellaneous Plan, \$3,668,068 was reported as deferred outflows of resources related to pensions resulting from City's contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2023	\$ (2,318,637)
2024	(1,878,018)
2025	(1,780,071)
2026	(2,044,431)
2027	-
Thereafter	-
	<u>\$ (8,021,157)</u>

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Payable to the Pension Plan

At June 30, 2022, the City reported a payable of \$0 for the outstanding amount of contributions to the Miscellaneous pension plan required for the year ended June 30, 2022.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 13 – Pension Plans (Continued)

C. City Safety Plan

Employees Covered

At June 30, 2021, the measurement date, the following employees were covered by the benefit terms the Plan:

Active employees	68
Transferred and terminated employees	43
Retired employees and beneficiaries	117
Total	228

Benefits Provided

CalPERS provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Classic and PEPRSA Safety CalPERS member becomes eligible for service retirement upon attainment of age 55 with at least 5 years of credited service. PEPRSA miscellaneous members become eligible for service retirement upon attainment of age 62 with at least 5 years of service. The service retirement benefit is a monthly allowance equal to the product of the benefit factor, years of service, and final compensation. The final compensation is the monthly average of the member's highest 36 full-time equivalent monthly pay.

Following are the benefit provisions for each plan:

Hire Date	Safety		
	Prior to January 1, 2011	January 1, 2011 thru January 1, 2013	On or After January 1, 2013
Benefit formula	3% @ 50	3% @ 55	2.7% @ 57
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	Monthly for life	Monthly for life	Monthly for life
Retirement age	50	50 - 55	50 - 57
Monthly benefits, as a % of eligible compensation	3.000%	2.400% to 3.000%	2.000% to 2.700%
Required employee contribution rates	9.00%	9.000%	11.500%
Required employer contribution rates	23.710%	20.640%	13.130%
Final Annual Compensation	1 year	1 year	1 year

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by the Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2022, employer contributions made for the Safety Cost-sharing Plan was \$3,055,010.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 13 – Pension Plans (Continued)

C. City Safety Plan (Continued)

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

The City's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plans is measured as of June 30, 2021, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

As of June 30, 2022, the City reported net pension liability for its proportionate shares of the net pension liability of the Safety Plan as follows:

	Increase (Decrease)		
	Plan Total Pension Liability	Plan Fiduciary Net Position	Plan Net Pension Liability/(Asset)
Balance at: 6/30/20 (Valuation date)	\$ 69,747,849	\$ 48,543,855	21,203,994
Balance at: 6/30/21 (Measurement date)	72,217,372	58,522,823	13,694,549
Net Changes during 2020-2021	2,469,523	9,978,968	(7,509,445)

The following is the approach established by the plan actuary to allocate the net pension liability and pension expense to the individual employers within the risk pool.

- (1) In determining a cost-sharing plan's proportionate share, total amounts of liabilities and assets are first calculated for the risk pool as a whole on the valuation date (June 30, 2020). The risk pool's fiduciary net position ("FNP") subtracted from its total pension liability ("TPL") determines the net pension liability ("NPL") at the valuation date.
- (2) Using standard actuarial roll forward methods, the risk pool TPL is then computed at the measurement date (June 30, 2021). Risk pool FNP at the measurement date is then subtracted from this number to compute the NPL for the risk pool at the measurement date. For purposes of FNP in this step and any later reference thereto, the risk pool's FNP at the measurement date denotes the aggregate risk pool's FNP at June 30, 2021 less the sum of all additional side fund (or unfunded liability) contributions made by all employers during the measurement period (2020-21).
- (3) The individual plan's TPL, FNP and NPL are also calculated at the valuation date.
- (4) Two ratios are created by dividing the plan's individual TPL and FNP as of the valuation date from (3) by the amounts in step (1), the risk pool's total TPL and FNP, respectively.
- (5) The plan's TPL as of the Measurement Date is equal to the risk pool TPL generated in (2) multiplied by the TPL ratio generated in (4). The plan's FNP as of the Measurement Date is equal to the FNP generated in (2) multiplied by the FNP ratio generated in (4) plus any additional side fund (or unfunded liability) contributions made by the employer on behalf of the plan during the measurement period.
- (6) The plan's NPL at the Measurement Date is the difference between the TPL and FNP calculated in (5).

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 13 – Pension Plans (Continued)

C. City Safety Plan (Continued)

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

The City's proportionate share of the net pension liability for the Safety Plan as of June 30, 2020 and 2021 was as follows:

Proportion June 30, 2020	0.31827%
Proportion June 30, 2021	0.39022%
Change - Increase (Decrease)	<u>0.07195%</u>

For the year ended June 30, 2022, the City recognized pension expense in the amount of \$3,435,135 for the Safety Plan.

The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized over 5-years straight line. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period.

The EARSL for PERF C for the measurement date ending June 30, 2021 is 3.7 years, which was obtained by dividing the total service years of 561,622 (the sum of remaining service lifetimes of the active employees) by 150,648 (the total number of participants: active, inactive, and retired) in PERF C. Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

At June 30, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred outflows of Resources	Deferred inflows of Resources
Pension contributions made subsequent to measurement date	\$ 3,055,010	\$ -
Difference between projected and actual earning on pension plan investments	-	(8,150,889)
Adjustment due to differences in proportions	-	(47,597)
Changes in assumptions	-	-
Difference between actual and expected experience	2,339,702	-
Difference between employer's actual contributions and proportionate share of contributions	-	(183,927)
Total	<u>\$ 5,394,712</u>	<u>\$ (8,382,413)</u>

For the City Safety Plan, \$3,055,010 was reported as deferred outflows of resources related to pensions resulting from City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023.

Note 13 – Pension Plans (Continued)

C. City Safety Plan (Continued)

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/ (Inflows) of Resources
2023	\$ (906,463)
2024	(1,198,582)
2025	(1,694,655)
2026	(2,243,011)
2027	-
Thereafter	-
	<u>\$ (6,042,711)</u>

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ended June 30, 2021 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2020 total pension liability. Both the June 30, 2021 and the June 30, 2020 total pension liabilities were based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal in accordance with the requirement of GASB Statement No. 68
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	2.75%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.65%
Mortality Rate Table	Derived using CalPERS' Membership Data for all Funds. The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2020 valuation were based on the results of December 2017 actuarial experience study for the period 1997 to 2015. Further details of the Experiences Study can be found on the CalPERS website.

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15% is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 13 – Pension Plans (Continued)

C. City Safety Plan (Continued)

Discount Rate (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, staff took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1 - 10 ¹	Real Return Years 11 + ²
Global equity	50.00%	4.80%	5.98%
Global fixed income	28.00%	1.00%	2.62%
Inflation sensitive assets	0.00%	0.77%	1.81%
Private equity	8.00%	6.30%	7.23%
Real assets	13.00%	3.75%	4.93%
Liquidity	1.00%	0.00%	-0.92%
	<u>100.00%</u>		

¹ An expected inflation of 2.00% was used for this period.

² An expected inflation of 2.92% was used for this period.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability for the City Safety Plan, calculated using the discount rate for the City Safety Plan, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

Plan's Aggregate Net Pension Liability/(Asset)			
Discount Rate - 1%	Current Discount	Discount Rate + 1%	
(6.15%)	Rate (7.15%)	(8.15%)	
\$ 23,415,631	\$ 13,694,549	\$ 5,709,881	

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Note 13 – Pension Plans (Continued)

C. City Safety Plan (Continued)

Payable to the Pension Plan

At June 30, 2022, the City reported a payable of \$0 for the outstanding amount of contributions to the Safety pension plan required for the year ended June 30, 2022.

D. Component Unit Miscellaneous Plan

Plan Description

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost Sharing Multiple-Employer Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS). The Plan consists of individual rate plans (benefit tiers) within a safety risk pool (police and fire) and a miscellaneous risk pool (all other.) Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety or miscellaneous pools are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the miscellaneous or safety risk pools. The Madera Housing Authority (Housing Authority) sponsors three miscellaneous rate plans. Benefit provisions under the Plan are established by State statute and Housing Authority resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Employees Covered

At June 30, 2021, the measurement date, the following employees were covered by the benefit terms the Plan:

Active employees	20
Transferred and terminated employees	49
Retired employees and beneficiaries	30
Total	99

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full - time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonduty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for the Plan are applied as specified by the Public Employees' Retirement Law.

Note 13 – Pension Plans (Continued)

D. Component Unit Miscellaneous Plan (Continued)

Following are the benefit provisions for each plan:

Hire Date	Miscellaneous - Component Unit		
	Prior to January 1, 2011	January 1, 2011 thru January 1, 2013	On or After January 1, 2013
Benefit formula	2.5% @ 55	2% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	Monthly for life	Monthly for life	Monthly for life
Retirement age	50 - 55	50 - 63	52 - 67
Monthly benefits, as a % of eligible compensation	2.000% to 2.500%	1.092% to 2.418%	1.000% to 2.500%
Required employee contribution rates	8.00%	7.000%	6.250%
Required employer contribution rates	12.361%	8.794%	7.732%
Final Annual Compensation	1 year	1 year	1 year

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by the Miscellaneous risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the fifteen month period ended September 30, 2021, employer contributions made for the Housing Authority Miscellaneous Cost-sharing Plan was \$336,481.

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

The Authority's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plans is measured as of June 30, 2021, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

As of September 30, 2021, the Authority reported net pension liability for its proportionate shares of the net pension liability of the Housing Authority Miscellaneous Plan as follows:

	Increase (Decrease)		
	Plan Total Pension Liability	Plan Fiduciary Net Position	Plan Net Pension Liability/(Asset)
Balance at: 6/30/20 (Valuation date)	\$ 10,523,378	\$ 7,134,083	\$ 3,389,295
Balance at: 6/30/21 (Measurement date)	11,439,712	8,922,694	2,517,018
Net Changes during 2020-2021	916,334	1,788,611	(872,277)

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 13 – Pension Plans (Continued)

D. Component Unit Miscellaneous Plan (Continued)

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

The following is the approach established by the plan actuary to allocate the net pension liability and pension expense to the individual employers within the risk pool.

- (1) In determining a cost-sharing plan's proportionate share, total amounts of liabilities and assets are first calculated for the risk pool as a whole on the valuation date (June 30, 2020). The risk pool's fiduciary net position ("FNP") subtracted from its total pension liability ("TPL") determines the net pension liability ("NPL") at the valuation date.
- (2) Using standard actuarial roll forward methods, the risk pool TPL is then computed at the measurement date (June 30, 2021). Risk pool FNP at the measurement date is then subtracted from this number to compute the NPL for the risk pool at the measurement date. For purposes of FNP in this step and any later reference thereto, the risk pool's FNP at the measurement date denotes the aggregate risk pool's FNP at June 30, 2021 less the sum of all additional side fund (or unfunded liability) contributions made by all employers during the measurement period (2020-21).
- (3) The individual plan's TPL, FNP and NPL are also calculated at the valuation date.
- (4) Two ratios are created by dividing the plan's individual TPL and FNP as of the valuation date from (3) by the amounts in step (1), the risk pool's total TPL and FNP, respectively.
- (5) The plan's TPL as of the Measurement Date is equal to the risk pool TPL generated in (2) multiplied by the TPL ratio generated in (4). The plan's FNP as of the Measurement Date is equal to the FNP generated in (2) multiplied by the FNP ratio generated in (4) plus any additional side fund (or unfunded liability) contributions made by the employer on behalf of the plan during the measurement period.
- (6) The plan's NPL at the Measurement Date is the difference between the TPL and FNP calculated in (5).

The Authority's proportionate share of the net pension liability for the Housing Authority Miscellaneous Plan as of June 30, 2020 and 2021 was as follows:

Proportion June 30, 2020	0.00846%
Proportion June 30, 2021	0.13260%
Change - Increase (Decrease)	0.12414%

For the fifteen month period ended September 30, 2021, the Authority recognized pension expense in the amount of \$1,784,391 for the Housing Authority Miscellaneous Plan.

The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized over 5-years straight line. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period.

The EARSL for PERF C for the measurement date ending June 30, 2021 is 3.7 years, which was obtained by dividing the total service years of 561,622 (the sum of remaining service lifetimes of the active employees) by 150,648 (the total number of participants: active, inactive, and retired) in PERF C. Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

Note 13 – Pension Plans (Continued)

D. Component Unit Miscellaneous Plan (Continued)

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

At September 30, 2021, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred outflows of Resources	Deferred inflows of Resources
Pension contributions made subsequent to measurement date	\$ 313,081	\$ -
Difference between projected and actual earning on pension plan investments	-	(2,581,362)
Adjustment due to differences in proportions	-	(150,774)
Changes in assumptions	-	(39,880)
Difference between actual and expected experience	376,100	-
Difference between employer's actual contributions and proportionate share of contributions	254,716	(3,103)
Total	<u>\$ 943,897</u>	<u>\$ (2,775,119)</u>

For the Housing Authority Miscellaneous Plan, \$313,081 was reported as deferred outflows of resources related to pensions resulting from Authority's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/ (Inflows) of Resources
2022	\$ (563,648)
2023	(467,443)
2024	(506,014)
2025	(607,198)
2026	-
Thereafter	-
	<u>\$ (2,144,303)</u>

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ended June 30, 2021 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2020 total pension liability. Both the June 30, 2020 and the June 30, 2021 total pension liabilities were based on the following actuarial methods and assumptions:

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 13 – Pension Plans (Continued)

D. Component Unit Miscellaneous Plan (Continued)

Actuarial Methods and Assumptions Used to Determine Total Pension Liability (Continued)

Actuarial Cost Method	Entry Age Normal in accordance with the requirement of GASB Statement No. 68
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	2.75%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.65%
Mortality Rate Table	Derived using CalPERS' Membership Data for all Funds. The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2020 valuation were based on the results of December 2017 actuarial experience study for the period 1997 to 2015. Further details of the Experiences Study can be found on the CalPERS website.

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15% is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, staff took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

B. General Information about OPEB

Plan Description

Employees from groups other than Management who have attained age 50 and completed at least five years of PERS service or who become eligible for medical disability benefits under PERS, are eligible to retire and participate in the City's healthcare plans by paying COBRA premiums based on 102% of the premiums applicable to active employees. Spouses and eligible dependent children of retirees may also be covered at the retiree's expense. Eligibility for this benefit ends at age 65 or when the individual becomes eligible for Medicare.

Management employees, who meet the requirements, may retire and receive City-paid medical insurance for the retiree only. This is a grandfathered benefit and is no longer offered prospectively to new Management employees, nor is it provided to any employee who did not meet required criteria as of December 31, 2018. Once the retiree attains age 65, a Medicare Supplement benefit is payable by the City for the retiree only, for the retiree's further lifetime.

Covered Employees

Membership in the plan consisted of the following at June 30, 2020, the date of the latest actuarial valuation:

Active employees	239
Transferred and terminated employees	-
Retired employees and beneficiaries	15
Total	254

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 14 – Other Postemployment Benefits (Continued)

B. General Information about OPEB (Continued)

Contributions

The obligation of the City to contribute to the plan is established and may be amended by the City Council. The City Council has established a policy of funding the actuarially determined contribution (ADC) on a pay as you go basis. For the fiscal year ended June 30, 2020, the City's average contribution rate was 2.41 % of covered-employee payroll. Employees are not required to contribute to the plan.

C. Total OPEB Liability, OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

Total OPEB Liability

The City's total OPEB liability was measured as of June 30, 2021. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2020. The total OPEB liability at June 30, 2022 was \$4,220,323.

Actuarial Assumptions

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Assumptions:

Discount Rate	1.92%
Inflation	2.75%
Aggregate payroll increases	3.00%
Expected long-term investment rate of return	n/a
Mortality, Termination, and Disability	CalPERS 2017 Experience Study
Mortality Improvement Scale	Modified projected fully generational with Scale MP-2014
Healthcare Trend Rate	4.50 percent for 2021-2023, 5.20 percent for 2024-2069, and 4.00 percent for 2070 and later years; Medicare ages: 4.00 percent for all years.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2019 through June 30, 2020.

Discount Rate

The discount rate used to measure the total OPEB liability was 2.45% percent. This discount rate is the mid-point, rounded to five basis points, of the range of 3-20 year municipal bond rate indices; S&P Municipal bond 20 Year High Grade Rate Index, Bond Buyer 20-Bond GO Index, and Fidelity GO AA 20 Year Bond Index.

Changes Recognized for the Measurement Period:	
Service Cost	188,828
Interest on the total OPEB liability	95,919
Changes of assumptions	255,972
Benefit payments	(92,662)
Net Changes during July 1, 2020 to June 30, 2021	448,057
Balance at June 30, 2021 (Measurement Date)	\$ 4,220,323

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (0.92 percent) or 1-percentage-point higher (2.92 percent) than the current discount rate:

Plan's Total OPEB Liability		
Discount Rate - 1% (0.92%)	Current Discount Rate (1.92%)	Discount Rate + 1% (2.92%)
\$ 4,759,860	\$ 4,220,323	\$ 3,753,032

Sensitivity of the Total OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

Plan's Total OPEB Liability		
Healthcare Cost		
-1%	Trend Rates	1%
\$ 3,614,938	\$ 4,220,323	\$ 4,958,315

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2022, the City recognized OPEB expense of \$371,253. At June 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred outflows of Resources	Deferred inflows of Resources
Employer contributions made subsequent to the measurement date	\$ 108,823	\$ -
Difference between expected and actual experience	154,438	-
Changes of assumptions	533,880	(128,765)
Total	\$ 797,141	\$ (128,765)

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 14 – Other Postemployment Benefits (Continued)

C. Total OPEB Liability, OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

The difference between projected OPEB plan investment earnings and actual earnings is amortized over a five year period. The remaining gains and losses are amortized over the expected average remaining service life. The expected average remaining service life is 9.8 years, which was determined as of June 30, 2020, the beginning of the measurement period, for employees covered by the OPEB plan benefit terms as of the valuation date.

Amount reported as deferred outflows of resources related to OPEB will be recognized as future OPEB expense as follows:

Measurement Period Ended June 30	Deferred Outflows/ (Inflows) of Resources
2023	\$ 86,506
2024	86,506
2025	86,506
2026	86,506
2027	104,177
Thereafter	109,352
	\$ 559,553

Note 15 – Deferred Compensation Plan

A. City

The City offers its employees a deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan was amended so that the assets of the plan are held in trust for the exclusive benefit of the participants and their beneficiaries. The employer is not required to contribute to the deferred compensation plan. Since the plan assets are administered by an outside party and not subject to the claims of the City's general creditors, their assets and related liabilities are not on the City's financial statements in accordance with Governmental Accounting Standards Board (GASB) Statement No. 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – An Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32."

B. Component Unit

The Housing Authority offers all of its full-time employees a deferred compensation plan (the Plan) created in accordance with Internal Revenue Code Section 457. The Plan permits employees to defer a portion of their current salary until future years. Participating employees may begin to receive the balance of their deferred compensation account upon termination, retirement, death, or emergency. Employees may also borrow against their deferred compensation account while employed (up to 50% of the current balance) under the deferred compensation loan program. Employees direct the investment of Plan assets into certificates of deposits and various mutual funds. The Housing Authority has insignificant administrative duties.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 16 – Service Concession Agreement

On October 7, 2009, the City entered into an operation and management lease agreement (Agreement) with the Sierra Golf Management, Inc. (SGM), under which SGM will operate and collect user fees from the Madera Municipal Golf Course for the five years with an additional five years extension of the Agreement. SGM will pay the City installment payment over the course of the Agreement; the present value of these installment payments is \$130,000. SGM will also pay a “per round” rate that establishes an initial rate of \$1.00 per round but increases in later years. SGM is required to operate and maintain the golf course in accordance with the Agreement. The City reports the golf course and related equipment as capital assets with a carrying amount of \$2,028,861 at year-end, and reported a receivable and deferred inflow of resources in the amount of \$16,670 at year-end pursuant to the service concession arrangement.

Note 17 – Other Required Disclosures

A. Deficit Fund Balances/Net Position

At June 30, 2022, the following funds had a fund balances (deficit) or unrestricted net position (deficit), which will be eliminated by the City as follows:

Fund	Fund Type	Deficit	Plan to eliminate deficit
Federal Aid Urban Fund	Special Revenue Fund	\$ 95,969	Federal grant reimbursement
Street Construction Fund	Special Revenue Fund	1,204,359	Local transportation fund reimbursement
Streets and Roads Fund	Capital Projects Fund	295	General fund subsidy
RDA Successor Agency Private Purpose Trust Fund	Fiduciary Fund	28,048,451	Future property tax increment revenue

B. Expenditures Exceeding Appropriations

For the year ended June 30, 2022, expenditures exceeded appropriations in the following funds by function:

Fund	Function	Excess Expenditures over Appropriations
General Fund	General government	\$ 144,443
General Fund	Capital outlay	953,936
General Development Impact Fee Special Revenue Fund	Public ways and facilities	126,133
Special Gas Tax Special Revenue Fund	Capital outlay	248,825
Residential Rehab Special Revenue Fund	Community development	19,209

City of Madera

Lease revenue bonds	(4,163,695)	-	(4,163,695)
Bonds payable	-	(31,044,894)	(31,044,894)
Unspent bond proceeds	2,517,025	-	2,517,025
Gain on refunding of debt	-	(282,240)	(282,240)
Net investment in capital assets	<u>\$ 177,369,996</u>	<u>\$ 65,475,770</u>	<u>\$ 242,845,766</u>

Note 20 – Commitments and Contingencies

A. Litigation

The City is currently a party to various claims and legal proceedings. Although the outcome of these lawsuits is not presently determinable, it is management's opinion that the ultimate liabilities, if any, resulting from such claims and proceedings will not materially affect the financial position of the City.

B. Contingent Liabilities

On March 1, 1993, the City issued Certificates of Participation in the aggregate of \$10,250,000 for the benefit of Madera Community Hospital (Hospital), a California nonprofit public benefit corporation. The Hospital is not included in the City's reporting entity. The City is obligated to make the principal payments only from and to the extent that it receives revenue from the Hospital. They are not secured by any pledge of taxes or other revenues of the City. In addition, the purchase payments are insured by the Office of Statewide Health Planning and Development of the State of California. As of June 30, 2022, the City has not recorded revenues from the Hospital.

C. Federal and State Grants

The City participates in various federal grant programs, the principal of which are subject to program compliance audits pursuant to the Single Audit act as amended. Accordingly, the City's compliance with applicable grant requirements will be established at a future date. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the City anticipates such amounts, if any, will be immaterial.

City of Madera
Notes to the Basic Financial Statements (Continued)
For the Year Ended June 30, 2022

Note 20 – Commitments and Contingencies (Continued)

D. Contractual Commitments

The City has active construction projects as of June 30, 2022. At year-end, the City's major contractual commitments are as follows:

	Contract Amount	Spent-to-Date	Remaining Commitment
Water System Condition Assessment/Rehab	\$ 295,000	\$ 255,754	\$ 39,246
Sewer System Condition Assessment/Rehab	320,320	205,690	114,630
Sewer Main Video Inspection	536,000	505,296	30,704
Northwest Water Storage Tank	392,430	144,536	247,894
New Fire Station	7,351,030	7,239,545	111,485
Solar and Energy Efficiency Equipment	18,848,862	18,194,324	654,538
RMRA SEALS/OVERLAYS 2020-21	1,500,684	1,355,919	144,765
Sewer Trunk Main Rehab at Ave 13	518,399	142,558	375,841
Olive Ave Widening from Gateway To Knox	380,553	253,270	127,283
Manual Water Meter Replacements	310,048	101,460	208,588
Pedestrian Facilities at Various Locations	292,880	264,582	28,298
Pedestrian Facilities at Lilly/Vineyard	210,556	191,297	19,259
Total	<u>\$ 30,956,762</u>	<u>\$ 28,854,231</u>	<u>\$ 2,102,531</u>

In addition, the City has various contracts with developers for the cost of public improvements made through construction of new developments within the City. The agreements are for the reimbursement of reasonable costs for the construction of public improvements within the planned developments. The City agrees to reimburse developers for the City's proportionate share of the costs of improvements as determined by the City Engineer. The City will not reimburse any expenses beyond the actual and reasonable costs of installing the improvements.

E. Encumbrances

The City uses an encumbrance system as an extension of normal budgetary accounting for governmental funds. Under this system, purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of applicable appropriations. Encumbrances outstanding at year-end are recorded as restricted, committed or assigned fund balance, depending on the classification of the resources to be used to liquidate the encumbrance, since they do not constitute expenditures or liabilities. Outstanding encumbrances at year-end are automatically re-appropriated for the following year. Unencumbered and unexpended appropriations lapse at year-end. Encumbrances outstanding as of June 30, 2022 amounted to \$647,262.

REQUIRED SUPPLEMENTARY INFORMATION
(Unaudited)

This page intentionally left blank.

City of Madera
Required Supplementary Information (Unaudited)
Budgetary Information
For the Year Ended June 30, 2022

Budgetary Information

The City adheres to the following general procedures in establishing its annual budget, which is reflected in the accompanying schedules:

- Budgets are legally adopted and formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds. Budgets presented in this report for comparison to actual amounts are presented in accordance with accounting principles generally accepted in the United States of America. From the effective date of the budget, the amounts stated therein as proposed expenditures become appropriations to the various City departments. During the year ended June 30, 2022, the City did not prepare a budget for the Park Development Special Revenue Fund.
- Reported budget amounts represent the original legally adopted budget as amended. Individual amendments were not material in relation to the original adopted budget amounts. The City Council may amend the budget to increase appropriations only by a duly adopted minute resolution during a regular meeting, providing that sufficient monies are available and that expenditures of proceeds of taxes will not be increased beyond the constitutional appropriation limit as imposed by Article XIII B of the State Constitution. Management can transfer, without City Council approval, budgeted amounts provided they do not increase or decrease total fund appropriations adopted by the City Council.
- Unexpended budgeted amounts lapse at the end of the budget year. Spending control for the fund is established by the amount of expenditures budgeted for the fund, but management control is exercised at the budgetary line item levels.
- Expenditures may not legally exceed overall budgeted appropriations.
- The budgets of the City's capital projects are primarily "long-term" budgets which emphasize major programs and capital outlay plans extending over a number of fiscal periods. Therefore, no budget-to-actual schedules are presented for Capital Projects Funds.

Notes to Schedule

Methods and assumptions used to determine contribution rates:

The actuarial methods and assumption used to set the actuarially determined contributions for Fiscal Year 2022 were derived from the June 30, 2019 funding valuation report.

Actuarial cost method	Entry Age Normal
Amortization method/period	For details, see June 30, 2019 Funding Valuation Report
Asset valuation method	Actuarial Value of Assets. For details, see June 30, 2017 Funding Valuation Report.
Inflation	2.50%
Salary increases	Varies by entry age and service
Payroll growth	2.75%
Investment rate of return	7.00% net of pension plan investment and administrative expenses.
Retirement age	The probabilities of retirement are based on the 2017 CalPERS Experience Study for the period from 1997 and 2015.
Mortality	The probabilities of retirement are based on the 2017 CalPERS Experience Study for the period from 1997 and 2015. Pre-retirement and Post-retirement mortality rates include 5 years of projected mortality improvement using Scale AA published by the Society of Actuaries.

SUPPLEMENTARY INFORMATION

Non-Major Governmental Funds

Special Revenue Funds:

Special Gas Tax Fund - This fund is used to account for the receipt of gasoline tax revenue paid to the City as a subvention from the State of California. These funds support maintenance activities and finance street construction projects as provided by State law.

Measure "T" Sales Tax Fund - This fund is used to account for the receipt of gasoline tax revenue paid to the City as a subvention from the State of California. These funds support maintenance activities and finance street construction projects as provided by State law.

Business Improvement District Fund - This fund is used to account for the City's efforts of the Business Improvement District (BID) to promote commerce in downtown Madera. The funding source is assessment fees.

Park Development Fund - This fund is used for park land acquisition and development. Principal revenue sources are parks acquisition and development fees collected from developers and state revenues for park development.

Parking District Fund - This fund is used to support the activities of the City's Parking Enforcement Office. Non-sworn officers patrol a designated area in Madera's downtown and issue citations to motorists who violate the City's vehicle ordinances.

Federal Aid Urban Fund - This fund is used to report various federal grants awarded to the City by the Federal government not otherwise accounted for in the General Fund or Capital Projects funds. A separate detailed report by program is available which meets the criteria of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, for all federal grants received by the City.

Street Construction Fund - This fund is used to account for right-of-way acquisition, construction, and improvements related to the City's street system. These projects are funded by various state and federal programs and matching City funds.

Landscape Assessment Fund - This fund is used to account for funds received from the landscaping assessment districts to provide for alternative sources of funding for maintenance and service of landscaping located within the public areas of the assessment districts.

Supplemental Law Enforcement Fund - This fund is used to account for revenues and expenditures associated with front line law enforcement and municipal police services. The funding source is state grant funding.

Intermodal Building Fund - This fund is used to account for the operation and maintenance of the intermodal building facility for use by the City and its tenants. The Intermodal Facility currently houses the MAX system, the Greyhound Bus terminal, and Madera Cab Co. This facility relies solely on grants and rents collected to fund its operations, and therefore does not impact the General Fund budget.

Economic Development Fund - This fund is used to account for revenues and expenditures related to programs and projects funded with Economic Development grant proceeds.

Residential Rehab Fund - This fund is used to account for revenues and expenditures related to the City's Down Payment Assistance Program (DAP) which assists low-income residents with purchasing their first homes and the Owner Occupied Rehabilitation (OOR) program that helps existing low-income homeowners make health and safety repairs to their homes.

Non-Major Governmental Funds (Continued)

Special Revenue Funds (Continued):

Low and Moderate Income Housing Fund - This fund is used to account for the balances of the former low and moderate income housing funds of the former Madera Redevelopment Agency and revenues and expenditures related to such housing projects and programs.

Community Facilities Districts (CFD) Fund - This fund is used to account for bond and annual tax assessment proceeds to be used for the construction and implementation of off-site infrastructure improvements. In addition, the Fund accounts for services and administration of assessments received annually.

Capital Projects Funds:

Streets and Roads Fund - This fund is used to account for right-of-way acquisition, construction, and improvements related to the City's street system. These projects are funded by various state and federal programs and matching City funds.

Custodial Funds

The Custodial Funds are used to account for assets held by the City in a custodial capacity for individuals, private organizations, other governments, and/or other funds. The City maintains the following custodial funds for the purposes indicated:

General Deposit Fund - This fund is used to account for all money held as deposits on behalf of others.

Community Facilities Districts - This fund is used to account for the collection of assessments from property owners and for the remittance of such assessments to bondholders as required by the Improvement Bond Act of 1915 and related California State statutes for the Community Facilities District No. 2006-1.

CITY OF MADERA - STATISTICAL SECTION

This part of the City of Madera's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

CONTENTS	PAGE
----------	------

Financial Trends - These schedules contain trend information to help the reader understand how the City of Madera's financial performance and well-being have changed over time.

1	Net Position by Component	180
2	Changes in Net Position	182
3	Fund Balances of Governmental Funds	186
4	Changes in Fund Balances of Governmental Funds	188

Revenue Capacity - These schedules contain information to help the reader assess the City of Madera's most significant local revenue source, the property tax.

5	Governmental Activities Tax Revenues by Source	191
6	Assessed Value of Taxable Property	192
7	Property Tax Levies and Collections	194
8	Direct and Overlapping Property Tax Rates	195
9	Top Ten Principal Property Taxpayers	196

Debt Capacity - These schedules present information to help the reader assess the affordability of the City's current level of outstanding debt and the City's ability to issue additional debt in the future.

10	Ratios of Outstanding Debt by Type	197
11	Ratios of General Bonded Debt Outstanding	198
12	Direct and Overlapping Governmental Activities Debt	199
13	Legal Debt Margin Information	200
14	Pledged Revenue Coverage	202

Demographic and Economic Information - These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

15	Demographic and Economic Statistics	204
16	Principal Employers	205

Operating Information - These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

17	Full-Time Equivalent City Government Employees by Function/Program	207
18	Operating Indicators by Function/Program	208
19	Capital Asset Statistics by Function/Program	210

Sources: Unless otherwise noted, the information in these schedules is derived from the City's annual comprehensive financial reports for the relevant year

NOTES:

- 1) Property tax amounts include state reimbursement of homeowners property tax relief and real property transfer tax.
Property tax for fiscal years 2012 and earlier included redevelopment tax increment.
- 2) The City passed "Measure T" allowing an additional increase of 0.50% in the local sales tax rate. This local measure became effective on April 1, 2007 and ends on March 31, 2027. In addition, the City passed "Measure K", an additional 0.50% sales tax increase specifically for public safety in November 2016 with no sunset date.
- 3) Increase in Gas Tax from FY 2010 onward was due to the "Fuel Tax Swap of 2010". This was the addition of Section 2103 fund allocation from a new motor vehicle excise tax that replace the allocation from Prop. 42 sales tax on gasoline.
Figures for fiscal years 2010 and earlier did not include the Prop. 42 revenue.

Total Direct Rate	0.12699	0.13147	0.13198	0.13281	0.13369

NOTES:

Exempt values are not included in Total

In 1978 the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1%, based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum of 2%). With few exceptions, property is only reassessed as a result of new construction activity or at the time it is sold to a new owner. At that point, the property is reassessed based upon the added value of the construction or at the purchase price (market value) or economic value of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

* Beginning in 2013/14 the Total Direct Rate no longer includes revenue generated from the former redevelopment tax rate areas. For the purposes of this report, residual revenue is assumed to be distributed to the City in the same proportions as general fund revenue.
